### Timeline

#### MARCH

- **24 March** – Sit GAMSAT.

#### APRIL

- **30 April** – Medicine Applications open.
  - Order academic transcripts if you attended (at any time) an institution not participating in ARTS.
  - This includes overseas and exchange transcripts.

#### MAY

- **4 May** – University of Melbourne and Macquarie University timely pre-requisite submissions due
- **31 May** – Medicine Applications close at 5pm AEST/3pm AWST.

#### JUNE

- **12 June** – Supporting documents to be posted to GEMSAS PO Boxes.
  - Includes hard copy transcripts if required and School-specific supporting documents.
- **22 June** – Rurality supporting documents to be posted to GEMSAS PO Box.

#### JULY

- If you studied at a non-ARTS institution in 2018, please send your Semester 1 results to the GEMSAS PO Box as soon as they are available. Please post by 25 July but must reach us within 5-7 days. Please use a postal service that will meet this deadline.

#### AUGUST

#### SEPTEMBER

- **Early September** - Offers of interviews for Medicine (and offers of places at The University of Queensland) are released.
- **Deakin** interviews commence Monday 10th
- **Griffith** Interview (GUMSAA) will be held on Wednesday 19th
- **Late September**
  - Interviews held.

#### OCTOBER

- **Early October**
  - Interviews held.

#### NOVEMBER

- **Early November** - Offers of places for Medicine are released.

#### DECEMBER

- Additional offers made to fill vacancies.

#### JANUARY 2019

- Additional offers made to fill vacancies.

#### FEBRUARY 2019
How GEMSAS will contact you

Email will be the primary means of contact between GEMSAS and applicants and there may also be a need to send you letters by mail to your nominated postal address.

It is essential that you provide a current email address which will be valid from April 2018 to February 2019 and that you regularly check your emails, including your junk or spam folders. Expect emails from GEMSAS at any time during the process but especially around the time of interview offers. Some of the participating universities will only communicate with applicants via email.

Some email messages may not be accepted or may be flagged as spam by some email providers (e.g. Hotmail or Yahoo).

Applicants are advised to provide an email address other than their current university address (unless it will be available until February 2019), Hotmail or Yahoo email addresses.

Neither GEMSAS nor the universities will be held responsible for undeliverable or unread email communication.

Should you need to change your email or postal address, please email the change to info@gemsas.edu.au.

Contact details for further enquiries

If you have further queries regarding the general application process, please contact GEMSAS: info@gemsas.edu.au. Please check the GEMSAS website and FAQs for details before submitting your query.

For detailed information on the GAMSAT Consortium graduate-entry* courses, as well as university specific entry requirements, you should first check the Medicine Admissions Guide and the GEMSAS and school websites. Links to the school websites can be found at www.gemsas.edu.au/medical-schools.

All GPA queries should be addressed to GEMSAS. Please check the GEMSAS website GPA FAQs and try the on-line GPA calculator before submitting your query - https://applygemsas.edu.au/gpaCalcIntro.jsf.

School-specific enquiries should be directed to the schools directly. Contact information can be found on the website www.gemsas.edu.au/medical-schools and on page 83 of this Guide.

Information about the graduate-entry medicine admissions process for GAMSAT Consortium schools (GEMSAS) can be found on the website http://www.gemsas.edu.au/gemsas-processes.

* The University of Sydney, Monash University and Flinders University are not participating in GEMSAS. Applicants for places at these universities must apply directly to them. Applicants can visit their websites at http://www.sydney.edu.au/, http://www.monash.edu/ and www.flinders.edu.au.
Admission policies

Offers

Successful applicants will be given a firm date by which to accept an offer of a place and offers not accepted according to the school’s instructions by that date will lapse.

If an applicant declines an offer of a place, or allows the offer to lapse, they will not be considered for another place or receive another offer, in the 2019 intake.

Deferral

Deferral of a place is unlikely. However, some universities permit deferral, particularly to complete an Honours year. Please consult the schools’ websites or discuss the possibility of being permitted to defer with the universities to which you wish to apply.

Exclusion

An applicant who has been excluded from any university must indicate this when they apply. The schools may contact applicants for further detail on receipt of the application data.

Admission and application irregularities

Applicants should be aware that the presentation of forged documents is a criminal offence in Australia and that universities may take appropriate action in such cases.

All tertiary study must be declared in the application. For the purpose of university admission, the withholding of information and the submission of incorrect or misleading information are deemed fraudulent. Action taken in such cases may include cancellation of an application for admission, withdrawal of an offer of admission, or cancellation of an enrolment.

Applicants who submit fraudulent documents or otherwise seek to gain an advantage by fraudulent means may be banned from future applications through GEMSAS.

Only your first submitted application will be processed, regardless of which application has been paid for.

Schools’ policies

Each university may have its own additional admission policies (which may include policies on prior or current studies, enrolment irregularities and/or transfers). To confirm if there are additional policies, review each school’s entry in this Guide and the websites of the schools to which you intend to apply.

Appeals process

If you wish to appeal any decision made in the processing of your application, you are most welcome to do so. Please provide a written explanation of why you disagree with the decision in question. You are welcome to provide supporting evidence. Address your appeal to the GAMSAT Selection Appeals Committee and email it to info@gemsas.edu.au. The Appeals Committee will consider your appeal and provide a written response within two weeks of receipt of your email. The Terms of Reference for the GAMSAT Selection Appeals Committee are available on request (please send your request to info@gemsas.edu.au). Note that this Committee can only hear appeals against decisions made in the processing of your application. Appeals against offer decisions made by participating schools must be made to the individual school concerned.

If you have been offered a place in another course or by an institution not participating in GEMSAS and you intend to accept that place, then please be considerate of fellow applicants and withdraw your application for all GAMSAT Consortium courses as soon as possible.
Application Process

Information in this section is generally common to all the schools, but is subject to the specific requirements outlined in the school entries and on the school websites.

GEMSAS and the schools make every effort to ensure the accuracy of information provided in this Admission Guide at the time of publication. However, applicants must consult the GEMSAS and university websites for more detailed and specific information and for updates.

There are three components of the application process:

1. GAMSAT
2. The application
3. Documentation

GAMSAT (www.gamsat.acer.edu.au)

All applicants for Commonwealth Supported Places and other domestic places at graduate-entry schools (i.e. citizens/permanent residents of Australia and citizens of New Zealand) must have a current score on the Graduate Australian Medical School Admissions Test (GAMSAT).

GAMSAT results are valid for two years: i.e. if you sat the March test in 2018 you may use the results obtained to apply for a graduate entry course commencing in 2019 and/or 2020. If you sit the September test in 2018 you may use the results obtained to apply for a graduate entry course commencing in 2020 and/or 2021.

There is a very helpful table on the GAMSAT website that shows the validity of all the GAMSAT tests.  http://gamsat.acer.edu.au/results/currency-of-results

Your GAMSAT results show a score for each of the three test Sections and an Overall Score.  All GAMSAT Consortium medical schools (except The University of Melbourne) rank applicants using the Overall GAMSAT Score (with required minimum Section scores normally around 50).  The University of Melbourne takes an average of the three sections of the GAMSAT, rather than the Overall GAMSAT Score.  The acceptable GAMSAT scores may be different for each of the universities, and may vary from year to year. When deciding whether or not to submit an application, you are advised to make sure that your GAMSAT scores fall within the acceptable ranges reported in the individual university entries in this Guide. You can evaluate your standing in relation to other candidates who sat GAMSAT in the same year as you did, by consulting the chart included with your Statement of Results. Please note that neither GEMSAS nor ACER staff have the authority to review individual GAMSAT transcripts or GAMSAT results or to offer advice on the likelihood of selection. GAMSAT candidates are responsible for determining their eligibility to apply.

Registration for the GAMSAT and application for admission to the graduate programs are separate processes.

Application

Applications are made on-line through the ApplyGEMSAS.edu.au website.  There is a link to this on the home page of the GEMSAS.edu.au website.

Applicants are selected for interview based on one or more of the following criteria:

- performance in GAMSAT;
• performance in a qualifying degree (as indicated by GPA);
• performance in a portfolio, special application or supplementary form or personal statement where required.

The Australian National University, Deakin University, The University of Melbourne and The University of Western Australia combine the first two criteria when ranking applicants for interview. The University of Melbourne uses an unweighted GAMSAT.

Griffith University ranks applicants for interview based on selections rank derived from a 50/50 combination of an unweighted GPA (converted to a percentage) and the overall GAMSAT score.

The University of Queensland uses the GPA as a hurdle, then ranks applicants by GAMSAT results using the GPA as a tie-breaker where necessary. The University of Queensland does not currently interview candidates.

The University of Wollongong, The University of Notre Dame, Australia (Fremantle) and The University of Notre Dame, Australia (Sydney) rank applicants on combined GPA, GAMSAT results and portfolio/written submission.

Macquarie University uses the personal statement as a hurdle, then ranks applicants based on a selection rank derived from a 50/50 combination of weighted GPA and overall GAMSAT score.

3 Supporting documentation

Supporting documentation will be required if:

• You studied at a non-ARTS\textsuperscript{1} university at any time.
• You have an Australian rural background (see page 19)
• You need to supply supporting documentation required by individual schools

When you complete your Application Form, you will be presented with relevant coversheets which you must print and attach as directed to the documents you are submitting. You can view the coversheets that you will be required to submit with supporting documentation, on the Coversheets page in the application, but will only be able to access them once you have submitted and paid for your application. Failure to include all requested documents may disadvantage you. Please send only those documents that have been specifically requested. Note that there are two different addresses to which documents are to be sent. Please ensure you follow the instructions on the coversheets to ensure your documents are sent to the correct address.

1. If any of your tertiary study is from a non-ARTS university please remember to submit your original transcript(s) posted no later than 5.00pm your time on Tuesday 12\textsuperscript{th} June 2018. This can include exchange study and study for which you may have received credit towards another degree.

Post documents to: GEMSAS Operations
PO Box 2025
South Melbourne VIC 3205

Any qualification undertaken in a language other than English must be documented by a certified copy of the original transcript, accompanied by an officially translated original (by a NAATI translator), in English.

All applicants who intend to post documentation, please use a postal service that will ensure that we receive your documentation within 5-7 days, e.g. via Airmail or a courier service.

\textsuperscript{1} See Appendix A

GEMSAS
Version 1.4 31 March 2018
2. Applicants to the following universities and for the streams or sub-quotas listed must send their documents posted no later than 5.00pm your time on Tuesday 12th June 2018, to the address indicated on the website or to:

GEMSAS Processing
PO Box 522
Ferny Hills DC
Queensland 4055

|                             | Conjoint MChD/PhD               | Applications will open 30 April 2018 and close 30 June 2018. If you are from a rural background please indicate this in your online application and provide supporting documentation. The Admissions procedure for Aboriginal and/or Torres Strait Islander applicants will follow similar procedures to that of the domestic GEMSAS process. Applicants will be assessed on their GPA and GAMSAT and may be offered an interview. Upon completion of Interviews, successful applicants will be offered a place. |
|                             |                                 | The ANU Medical School offers the opportunity for students to undertake a conjoint Medicinae ac Chirurgiae Doctoranda / Doctor of Philosophy (MChD/PhD). This program caters for students who have a desire to enter the medical profession but also possess a keen interest in cutting-edge research. Applicants interested in undertaking the conjoint program should contact hdr.medicalschool@anu.edu.au for program details. |
|                             |                                 | Applicants wishing to enter the conjoint program must have relevant research experience in the form of a completed Honours or Masters by research and gain entry to the MChD on merit in order to be considered under the additional admission criteria of the conjoint program. |
| Deakin University           | Financial Disadvantage          | [If you applied for any of the following Deakin bonuses in 2017 ONLY, please select the “2017 applied for bonus” tick box in the application and we will not require any further documentation: Financial disadvantage, Clinical experience, Work experience, Deakin Geelong rural bonus.](mailto:admissions.medicalschool@anu.edu.au) NB. If you applied and were found ineligible or did not provide documentation in 2017 (you would have been emailed and informed of this last year), please DO NOT tick the 2017 box but select yes in the application if you are eligible for the bonus and provide any documentation required. |
|                             |                                 | Applicants who can demonstrate financial disadvantage, which may have impacted on academic performance during their undergraduate degree, may receive a 2% bonus of the combined GPA and GAMSAT score. |
The Deakin School of Medicine recognises the following benefits as providing eligibility for the financial disadvantage bonus:

- Centrelink income payments - The School of Medicine recognises the following Centrelink benefits: ABSTUDY, AUSTUDY, Parent Payment (Partnered or Single), Youth Allowance, Disability Pension, Veterans Means Assessed Pension.
- Department of Veterans’ Affairs income payments.
- Other Australian Federal or State Government income payments of similar amounts may be considered.
- StudyLink benefits for applicants from New Zealand.

\textit{NB: this does not include a StudyLink loan.}

Please ensure supporting documentation clearly shows the approved benefit and supports a minimum of 12 months.

Supporting documentation includes (approved benefit must clearly be listed):

- A letter/statement from Centrelink or StudyLink (each month must be clearly visible if providing Centrelink documents).
- A PAYG Centrelink Payment Summary (showing a minimum payment period of 52 weeks).
- Tax returns (if the approved benefit and time period are clearly shown).
- Bank statements (only if the approved benefit is detailed).
- Any other document clearly supporting the bonus criteria.

Please note:

- Documents with "Employment or Youth and Student Assistance service" or "NSS" detailed are not sufficient as they do not clearly state the approved benefit.
- Applicants must have been in receipt of the approved benefit for at least 12 months, at the time of application (not the end of 2018 or at the time of course commencement, as there is no guarantee that the applicant will receive the benefit in the future).
- Insufficient supporting documentation includes: documents provided with "Employment or Youth and Student Assistance service” listed (the approved benefit must be detailed); documents showing less than 52 weeks payment period; providing one document at the beginning of the time period and one at the end is not sufficient, (each month must clearly be shown).

See school website for details:
https://www.deakin.edu.au/doctor-medicine

<table>
<thead>
<tr>
<th>Prior Clinical Experience in a Health Discipline</th>
</tr>
</thead>
</table>

Applicants who have completed the equivalent of one year of full-time clinical practice (i.e. minimum of 36 hours per week) as a registered health professional in the health disciplines listed below may receive a 4% bonus of the combined GPA and GAMSAT score.

\textbf{Disciplines}: chiropractic, dentistry (dentists only), nursing (registered nurses only), midwifery, optometry, osteopathy, pharmacy (pharmacists only), physiotherapy, podiatry, psychology, occupational therapy, dietetics, speech pathology, paramedics, and practitioners of Aboriginal and Torres Strait Islander Health, Chinese Medicine, and Medical Radiation.

The 17 above listed health disciplines are the only health disciplines which have been approved by the School of Medicine Admission and Selection Committee for the 2018-2019 selection round. No other health disciplines are eligible to receive the clinical experience in a health discipline bonus.

Please provide documentation that will show:
| Work Experience | 12 months of full-time equivalent clinical experience (e.g. letter of support from employer / group certificate),  
|                | AND  
|                | Evidence of registered health professional status for the relevant clinical experience year(s) (e.g. proof of registration / print out from AHPRA website).  
|                | Supporting documentation includes:  
|                | • Supporting letters from the applicant’s employer(s) stating length of employment in the clinical field. The letters must be dated and signed.  
|                | • Payslips, ensure the payslips cover one year full-time clinical experience and includes both the applicant name and the employers’ name.  
|                | • Group Certificate/PAYG Summary, ensure the group certificate includes both the applicant name and the employers’ name.  
|                | • Registration documentation, ensure the documentation covers the clinical year(s) that are being claimed.  
|                | Please note:  
|                | • Periods of provisional registration, or as an intern, are excluded.  
|                | • Offers of employment and contracts are not acceptable documentation as they do not prove actual clinical experience, or that the contract was completed.  
|                | • Tax Return application. Please note a notice of tax assessment is not acceptable as it does not state the occupation.  
|                | • Future registration or employment cannot be considered. Applicants must have completed the one year (12 months), at the time of application. Bonuses can only be awarded to applicants who will have completed the 1 year (12 months) at the time of application.  
|                | • If you receive the Prior Clinical Experience Bonus you are not eligible for the Work Experience Bonus.  
|                | See school website for details:  
|                | https://www.deakin.edu.au/doctor-medicine  

Applicants who have worked full time (i.e. minimum of 36 hours per week) for 2 years cumulatively over a 4 year period, or 2 years consecutively may receive a 2% bonus of the combined GPA and GAMSAT score.  

Supporting documentation includes:  

|                      | • Supporting letters from the applicant’s employer(s) stating the length of employment and weekly hours worked. The letters must be dated and signed.  
|                      | • Group Certificate/PAYG Summary, ensure the group certificate includes both the applicant name and the employers’ name.  
|                      | • Payslips, ensure the payslips cover the two years full-time equivalent work experience over a maximum 4 years; and includes both the applicant name and the employers’ name.  
|                      | • Tax Return application / Notice of Tax Assessment.  
|                      | • Any other documentation supporting the bonus criteria.  

Please note:  

|                      | • Applicants can either receive the Work Experience Bonus (2%) or the Prior Clinical Work Bonus (4%). They cannot claim both bonuses. The Work Experience Bonus applies to any paid work, non-clinical work or clinical work that is not listed in the defined list of disciplines.  
|                      | • Bonuses can only be awarded to those applicants who have completed 2 years cumulatively over a 4 year period, or 2 years consecutively at the time of application (not the end of 2018).
- Offers of employment and contracts are not acceptable documentation as they do not prove actual work experience, or that the contract was completed.

See school website for details:
https://www.deakin.edu.au/doctor-medicine

<table>

<tr>
<th>Deakin Study Bonus</th>
</tr>
</thead>
<tbody>
<tr>
<td>Applicants are eligible for this bonus if, at the time of application, they:-</td>
</tr>
<tr>
<td>- Have completed and graduated with an undergraduate degree from Deakin University with a minimum of two full-time equivalent years of study (2FTE)</td>
</tr>
<tr>
<td>- Will be completing an undergraduate degree from Deakin University and have completed at least 2FTEs.</td>
</tr>
</tbody>
</table>

Eligible applicants may receive a 4% bonus of the combined GPA and GAMSAT score.

Please note:
- Credit for Prior Learning will not count as having met the 2 years’ FTE completion requirement.

This bonus will be assessed using study results automatically retrieved via ARTS (i.e. no extra documentation will be required).

See school website for details:
https://www.deakin.edu.au/doctor-medicine

<table>

</table>
| Deakin University | Rurality / City of Greater Geelong Bonus   | This bonus is given to applicants who have lived in the City of Greater Geelong or a Rural/Regional area for at least 5 years consecutively or 10 years cumulatively. Complete the questions in the application form and submit the required supporting documentation.  
  - Residence in ASGC-RA 2 or the City of Greater Geelong: a bonus of 4% of the combined GPA and GAMSAT score.  
  - Residence in ASGC-RA 3-5: a bonus of 8% of the combined GPA and GAMSAT score.  
  Note: Some suburbs in the Geelong region are deemed RA2 (please check the DoctorConnect site [http://www.doctorconnect.gov.au/internet/otd/publishing.nsf/Content/ASGSRA_location](http://www.doctorconnect.gov.au/internet/otd/publishing.nsf/Content/ASGSRA_location)). If deemed RA2, please apply for both the Rural and the Geelong Bonus. GEMSAS will assess your application and deem the applicable bonus. Please note that only one bonus will be awarded.  
  See school website for details: [https://www.deakin.edu.au/doctor-medicine](https://www.deakin.edu.au/doctor-medicine) |

Please refer to the ‘Rurality’ section on page 19 of this guide.

---

If you do not provide any required additional documentation, you will not be eligible for consideration for the category/sub-quota concerned.
Bachelor degree

All applicants must have completed, or be in the final year, of a Bachelor or Honours degree. Undergraduate Australian degrees must be from a Commonwealth-accredited institution (see [http://www.teqsa.gov.au/national-register](http://www.teqsa.gov.au/national-register)). (NB. Wollongong require that qualifying degrees are from a University). Overseas degrees must be recognised by the Australian Department of Education and Training Qualifications Recognition Policy Unit (previously AEI-NOOSR) as equivalent to an Australian Bachelor degree. Your qualifications will be assessed for equivalency as part of your application process.

Please do not contact the Australian Department of Education and Training Qualifications Recognition Policy Unit for assessment of your degree.

For those in the final year of study, satisfactory completion of the degree in 2018 will be a condition of entry. Note that if you cannot complete and provide evidence of completion of your degree in the 2018 calendar year, any offer you have received that is conditional upon completion of your current degree may be withdrawn.

Applicants enrolled in a two-year degree, a three or four year embedded degree or one-year conversion degree, or those who have completed a higher degree without a prior Bachelor degree should consult their preferred school/s to ascertain eligibility. Note that not all schools accept such degrees. Please see individual school entries in this Guide.

Grade Point Average (GPA)

GEMSAS will calculate a Grade Point Average (GPA) from electronic copies of academic transcripts (from ARTS institutions) or paper transcripts. Original hard-copy transcripts will be needed if you have completed your degree or any part of your qualifying degree at an overseas university or any university not included in the list of ARTS institutions in Appendix A.

Applicants may wish to calculate their GPA according to the instructions on the GEMSAS website ([www.gemsas.edu.au/gpa-calculations](http://www.gemsas.edu.au/gpa-calculations)). A GPA calculator is available on the application page ([www.applygemsas.com.au/](http://www.applygemsas.com.au/)) for use. Please note that any GPA calculated by an applicant will be an estimated GPA and used only for the information of the applicant.

No preference is given to graduates with particular Bachelor degrees. The GAMSAT Consortium encourages individuals from diverse educational backgrounds who will bring to the profession a variety of talents and interests.

Exceptions:

- Applicants to Medicine at The University of Melbourne must have successfully completed approved prerequisite second year level studies in anatomy, physiology and biochemistry.
- Applicants to Medicine at Macquarie University must have successfully completed one approved tertiary unit of Human Anatomy and one approved tertiary unit of Human Physiology.

The GPA indicates the level of performance in the qualifying degree. There is no differentiation of GPA between institutions or courses. It should be emphasised that a science major is not a prerequisite, and that academic excellence in other areas, such as the humanities and social sciences, is encouraged and recognised.
Interviews

The interview is designed to assess qualities considered by the schools to be associated with success in both medical school and later practice, and is conducted by trained interviewers. Academic performance is not discussed at the interview. No domestic applicant will receive more than one interview offer from a medical school participating in GEMSAS in the 2018 admissions round, for entry in 2019.

An exception is for applicants who qualify for the Guaranteed Entry Pathway at the University of Melbourne. These applicants will be considered by the University of Melbourne separately to the GEMSAS process and must apply in accordance with instructions available at http://mdhs-study.unimelb.edu.au/degrees/doctor-of-medicine/apply-now#apply-now. All eligible applicants will be interviewed. If Guaranteed Entry Full Fee eligible applicants wish to be considered for CSP and bonded places at Melbourne or other medical schools, they must also apply via GEMSAS.

Selected applicants receive an invitation to interview by letter or email. This invitation must be presented on arrival at the medical school, together with a valid passport or current photo-bearing driver’s licence for identification purposes.

Some schools require that you supply a passport photograph prior to interview. If this applies to you, you will be notified when interview invitations are issued, with instructions on how and when to submit your digital photo.

Applicants must meet all expenses associated with attending the interview.

Applicants unsuccessful in receiving an interview at any of the medical schools they applied to will be notified by email by the GEMSAS team. Applicants who were not interviewed will not participate in further processing.

Exception:

The University of Queensland (UQ) does not currently interview applicants for the graduate entry program. UQ’s first round of place offers coincides with the release of interview offers from the other institutions. The later UQ offer rounds are normally filled by applicants who included UQ as a lower preference but were not offered places after being interviewed by their higher preference.

If you are eligible to be made an offer at a University that did not interview you, the University reserves the right to call you for an informal conversation prior to offers being made. This is to ensure that the applicant is aware of specific course and University requirements. This conversation does not constitute an interview or indicate an offer of a place.

Offers

Selection into graduate-entry medicine is based on up to four criteria:

- performance in GAMSAT;
- performance as indicated by GPA. Please see school entries for details about qualifying degrees and GPA calculations;
- performance in interview (except The University of Queensland);
- performance in a portfolio, special application or supplementary form or personal statement.

The way in which each university combines these criteria when making their final offers varies. For more information refer to the individual university entries which begin on page 37 of this Guide. Alternatively, you can consult each university’s website for detailed information. Links are available from www.gemsas.edu.au.
A successful application may lead to an offer of one of a range of places, including bonded and full-fee places. When you apply you will be asked (for each school on your preference list), to choose (and for some schools, rank) the types of places you will be prepared to accept. Selection is based on ranked lists and quotas. The quota (i.e. number of places) available for each offer type is restricted. To maximise your chances of receiving an offer at the schools of your choice, consider listing all types of places. If you omit (for instance) the Bonded Medical Places (BMP) offer type and you are ranked to get a BMP offer, it will not be made and you’ll drop down to your next preferred school for consideration. Please read carefully all the information about bonded places on the DoH website at [www.health.gov.au/bmpscheme](http://www.health.gov.au/bmpscheme).

When allocations are being made, schools will allocate quotas for each offer type. The allocation will be made using that school’s ranked list in order: CSP, BMP and FEE (if applicable). Some schools will ask you to rank all offer types and some will just want you to indicate which offer types you are prepared to accept if offered. To list only one offer type means you limit the available places that can be offered to you.

Individual School Details:

- **For The University of Queensland** you may specify the types of places you wish to be considered for, however no consideration is given to preferred offer type when offers are made. Offers will be made in the order of CSP first and BMP second.

- **For The University of Melbourne** you may specify the types of places you wish to be considered for. You will not be considered for a type of place that you have not listed, however no consideration is given to the order of preferred offer types listed when offers are made. Offers will be made in the following order: CSP, BMP, and FEE, with the most highly ranked applicants being offered CSP places and so on down the merit order until all vacancies are filled. It is important that applicants who are not in a position to pay for a full fee (FEE) paying place DO NOT list this type of place in their application for the University of Melbourne. Once made an offer into a FEE place it is not possible to swap into a CSP or BMP place.

- **For The University of Western Australia** you may specify the types of places you wish to be considered for, however no consideration is given to preferred offer type when offers are made. Offers will be made in the following order: CSP then BMP.

- **ANU will allocate place** types based on the ranking of the applicant and their preferences.

- **For the University of Wollongong** you must specify the types of places you wish to be considered for in your preferred order. You must also note your preference for the Wollongong campus or the Shoalhaven campus (or indicate no preference). Allocations will be according to applicant rank and preference.

- **For Deakin University** you may specify the types of places you wish to be considered for. You will not be considered for a type of place that you have not listed. Offers will be made in the following order: CSP and BMP, with the most highly ranked applicants being offered CSP places and so on down the merit order until all vacancies are filled.

- **For Griffith University** you must specify the types of places you wish to be considered for in your preferred order. You must also note your preference for the Gold Coast campus or the Sunshine Coast campus. Allocations will be according to applicant rank and preference.

- **For The University of Notre Dame Australia**, Fremantle and Sydney, applicants must specify the types of places they wish to be considered for. Applicants will not be considered for a place they have not selected. Offers will be made in the following order: CSP first, BMP second and Full-Fee third.

- **For Macquarie University** all places are Full-Fee paying and will be allocated based on the ranking of the applicant and their preferences.

---

- If you decline an offer of a place, you will not be considered for another place or receive another offer.

- If you have been offered a place in another course or by an institution not participating in GEMSAS and you intend to accept that place, then please be considerate of fellow applicants and withdraw your application for all GAMSAT Consortium courses as soon as possible.
Quotas

Each university has a quota for the year’s intake of domestic students (Australian citizens/permanent residents and New Zealand citizens). This includes Commonwealth supported non-bonded places (CSP) and Commonwealth supported bonded places (BMP) as well as Australian full fee places (Melbourne and Notre Dame only).

Most schools are obliged to fill at least 25% of all Commonwealth Supported Places with students from a rural background. Rural background sub-quotas can be filled from a combination of offer types and are not restricted to only bonded places.

**Quotas for 2019 are expected to be:**

**BMP – Bonded Medical Places Scheme**

The BMP Scheme is open to all first year medical students who are Australian citizens, permanent residents of Australia and also New Zealand citizens who held a New Zealand Special Category Visa on or before 26 February 2001.
Applicants in special categories

Applicants in the following categories should refer to the medical school websites, the entry requirements section (from page 37) and the tables on pages 7 - 13:

- Combined Degree applicants;
- Indigenous Australian applicants;
- Rural resident applicants;
- Other special sub-quota applicants.
Rurality

Please note the supporting documentation requirement has been updated since last year.

If you have lived in an Australian rural area, ASGS-RA 2 to 5, for **5 years consecutively or 10 years cumulatively**, you may be eligible for consideration in rural schemes and sub-quotas. You will need to complete the Rurality question in the Application Form and submit supporting documentation. For information about rural sub quotas or bonus points please view the schools' entry requirements pages.

The ASGS-RA is a geographical classification tool developed by the Australian Bureau of Statistics in **2011**. The purpose of the RA structure is to classify data from census Collection Districts (CDs) into broad geographical categories, called Remoteness Areas (RAs). The RA categories are defined in terms of ‘remoteness’ – the physical distance of a location from the nearest urban centre based on population size. Under this classification system remoteness is updated each census. The most recent classification is the one by which we will assess your rurality.

The Graduate Entry Medical School Admissions System (GEMSAS) will use these guidelines in the processing of Rurality Claims.

The ASGS-RA system is made up of 5 categories:

- RA-1 Major city
- RA-2 Inner regional
- RA-3 Outer regional
- RA-4 Remote
- RA-5 Very remote

If you have lived in an ASGS-RA 2 to 5 area for **5 years consecutively or 10 years cumulatively** and wish to be considered for rural schemes and sub-quotas, you will need to provide documentary evidence. Note that the rural residence must have been your primary residence. You can check your ASGS-RA status at: http://www.doctorconnect.gov.au/internet/otd/publishing.nsf/Content/ASGSRA_locator

Acceptable supporting documents include:

- Supporting letters from a GP/dentist, bank, school, university or workplace (signed originals on letterhead). Supporting letters must be dated, include your rural residential address and your rural address history, and the dates that you resided at the address.

- Documents to prove residence such as invoices for telephone, utilities, or bank statements showing your (or your family’s) address, can be provided but must be accompanied with:
  - a statutory declaration from a parent (if you were under 18 at the time and the bills are in the family name);  
  - OR  
  - a statutory declaration from you, the applicant (if you were over 18 at the time, as the bills must be in your name).

The letters of support and statutory declarations must include the rural address history and time periods. An online printed invoice will only be acceptable if dated the year it was issued. E.g. a bank statement must be dated the year you are supporting (i.e. dated 19 July 2015 if you are supporting the year 2015, it cannot be dated 2018 if you are supporting the year 2015).

Please note:

- School reports are not sufficient documentation as we need to clearly see your rural residential address
- Documents can be copies and don’t need to be certified. The exception to this is letters that have been written specifically in support of your claim. These must be original letters.
- Please ensure your documentation supports 5 years consecutively or 10 years cumulatively of rural living and includes the cover sheet you will print off when you submit your on-line application.
- You cannot claim time in the future as part of the 5 or 10 years, as there is no way to establish proof that you will continue to reside in a rural setting.
• Time spent at a holiday home (second residence) or during school holidays in a rural setting, will not be considered.

• If selecting 5 years consecutive then the supporting documentation must support 5 full years and must be consecutive.

• If selecting 10 years cumulative then the supporting documentation must support 10 full years and documentation will be needed for each time period, one document for the start of each time period and one for the end of each time period.

• All rural living should be included in the online application but supporting documentation only needs to support 5 years consecutive or 10 years cumulative rural living.

Please send your supporting documentation and the coversheet to:

GEMSAS Processing
PO Box 522
Ferny Hills DC
Queensland 4055

Note that the supporting documentation must be posted **no later than 5pm your time on Friday 22\textsuperscript{nd} June 2018**.
FAQs about the application process

What happens to my application?

GEMSAS is a computerised matching system which calculates GPAs and bonuses, assesses applications for eligibility, and uses an algorithm to rank and allocate eligible applicants to their highest preferred medical school. For more details about the matching algorithm, please refer to www.gemsas.edu.au/gemsas-processes.

Applications will be assessed according to the selection rules of each preferenced school. GEMSAS will assess the eligibility and competitiveness of all applicants for their first preference medical school. If the applicant is not eligible or not ranked highly enough he or she will be assessed for the second-preference school and so on until the applicant has either been allocated an interview at a preferenced medical school or all preferences have been exhausted.

Applications will be assessed again after interviews according to the selection rules of each preferenced school. Interview scores will be standardised and used by all participating schools (except The University of Queensland). GEMSAS will assess the competitiveness of all interviewed applicants for their first-preference medical school. If the applicant is not ranked highly enough he or she will be assessed for the second-preference school and so on until the applicant has either been offered a place at a preferenced medical school or all preferences have been exhausted.

You cannot be considered for an offer at a school which is a higher preference than the school at which you were interviewed. They have already decided you don’t meet their minimum criteria or you were not ranked highly enough to get an interview offer and that can’t change in the subsequent offer round despite how well you do at interview.

Once an application is submitted NO FURTHER changes can be made.

How do I choose between two valid GAMSAT results?

You will have two valid GAMSAT results if you sat two separate GAMSAT tests - for example the GAMSAT\(^2\) in 2017 and 2018. You are advised to compare both results against the acceptable scores for each university and then select the result you wish the universities to consider.

Simply record in the Application Form the appropriate candidate identification number, month and year of sitting for the test you wish to use for selection. This will be the only GAMSAT result that will be provided to GEMSAS.

It is not possible to mix individual Section scores from different years or to use different tests for different universities.

Will the March or September GAMSAT scores be acceptable for entry to GAMSAT Consortium medical schools?

The GAMSAT is now held in March and September and the differentiation between Australia, UK and Ireland has been removed. There is a very helpful table on the GAMSAT website that shows the validity of all the GAMSAT tests. http://gamsat.acer.edu.au/results/currency-of-results.

Which school should I apply to?

There are ten Medical Schools in the GAMSAT Consortium. Domestic applicants may nominate up to six preferences. Please take into consideration the special character of each medical school and choose as preferences those schools whose philosophies, location and special character best matches your requirements.

There are significant differences in entry requirements between the schools. You might find that you have a much better chance of gaining admission to one school over another. Please ensure you make your selections with care. Once preferences are entered and your application submitted, you will not be able to change them. Subsequent transfers between Schools are unlikely to be approved.

\(^2\) See page 6 for more information about GAMSAT test validity.
If you are not prepared to undertake the course at a particular university you should not list it.

You are advised to put only medical schools and types of places that you are prepared to accept. You are strongly advised to obtain detailed information from the schools’ websites to ensure you are fully informed on both the admissions criteria and the structure of the individual programs. If you are offered a place and you decline it, or if you allow your offer to lapse, then your application will be withdrawn from further processing and you will NOT receive another offer in the current offer period. There is no requirement to list the full six preferences available to you.

I want to know about indicating the types of places I would be prepared to accept and ranking them in order?

When you apply you will be asked for each school on your preference list, to choose (and for some schools, rank) the types of places you will be prepared to accept. Selection is based on ranked lists and quotas. The quota (i.e. number of places) available for each offer type is restricted. To maximise your chances of receiving an offer at the schools of your choice, list all types of places. If you omit (for instance) the BMP offer type and you are ranked to get a BMP offer, the offer will not be made and you’ll drop down to your next preferred school for consideration. Please read carefully all the information about bonded places on the DoH website at www.health.gov.au/bmpscheme.

When allocations are being made, schools will allocate quotas for each offer type. The allocation will be made using that school’s ranked list in order: CSP, BMP and FEE (if applicable). Some schools will ask you to rank all offer types and some will just want you to indicate which offer types you are prepared to accept if offered. To list only one offer type means you limit the available places that can be offered to you. Applicants accepting a FEE offer at the University of Melbourne will be required to submit an MD Student Financial Plan.

Individual School Details:

- **For The University of Queensland** you may specify the types of places you wish to be considered for, however no consideration is given to preferred offer type when offers are made. Offers will be made in the order of CSP first and BMP second.

- **For The University of Melbourne** you may specify the types of places you wish to be considered for. You will not be considered for a type of place that you have not listed, however no consideration is given to the order of preferred offer types listed when offers are made. Offers will be made in the following order: CSP, BMP and FEE, with the most highly ranked applicants being offered CSP places and so on down the merit order until all vacancies are filled. It is important that applicants who are not in a position to pay for a full fee (FEE) paying place DO NOT list this type of place in their application for the University of Melbourne. Once made an offer into a FEE place it is not possible to swap into a CSP or BMP place.

- **For The University of Western Australia** you may specify the types of places you wish to be considered for, however no consideration is given to preferred offer type when offers are made. Offers will be made in the following order: CSP then BMP.

- **ANU** will allocate place types based on the ranking of the applicant and their preferences.

- **For the University of Wollongong** you must specify the types of places you wish to be considered for in your preferred order. You must also note your preference for the Wollongong campus or the Shoalhaven campus (or indicate no preference). Allocations will be according to applicant rank and preference.

- **For Deakin University** you may specify the types of places you wish to be considered for. You will not be considered for a type of place that you have not listed. Offers will be made in the following order: CSP and BMP, with the most highly ranked applicants being offered CSP places and so on down the merit order until all vacancies are filled.

- **For Griffith University** you must specify the types of places you wish to be considered for in your preferred order. You must also note your preference for the Gold Coast campus or the Sunshine Coast campus.
Allocations will be according to applicant rank and preference.

- **For The University of Notre Dame Australia**, Fremantle and Sydney, applicants must specify the types of places they wish to be considered for. Applicants will not be considered for a place they have not selected. Offers will be made in the following order: CSP first, BMP second and Full-Fee third.

- **For Macquarie University** all places are Full-Fee paying and will be allocated based on the ranking of the applicant and their preferences.

**I want to change my preferences.**

Once you have submitted your application, this is not possible.

**Exception:**
The University of Notre Dame Australia, Fremantle and The University of Notre Dame Australia, Sydney may accept one change of preference per application year should you wish to add or remove the Full Fee-paying preference. No other offer type changes will be considered. Changes must be made in writing directly with the Institution on or before 4pm AEST for NSW and 4pm AWST for WA **5th October 2018**. See the Schools’ pages in this guide for details.

**My degree is more than 10 years old; am I still eligible to apply?**

Bachelor degrees that were awarded more than 10 years prior to the anticipated commencement date may not be acceptable at the school to which you are applying. Most schools accept postgraduate study within the last 10 years as reason to waive this rule. They will then calculate the GPA on the prior bachelor degree. Some schools do accept Postgraduate study either for calculation of the GPA or to meet their GPA hurdle.

To confirm whether your degree will be recognised, check the relevant schools’ entries in this Guide and their websites and contact the schools if you are still in doubt.

The pre-requisite subjects required for entry to the University of Melbourne and Macquarie University must be completed within 10 years of commencing the MD.

**Which degree will you use to calculate my GPA (the Key Degree)?**

We will generally use the GPA from the most recently-completed qualifying degree and this may include a degree you will complete in the year in which you apply, except for UWA (see school website for details on what study is included) who consider the most recent three years FTE of valid study. See the schools’ entries in this Guide for more details.

**Exception:**
UQ please see their school entry for more information.

**What is the definition of an Honours Year, in terms of GEMSAS GPA calculations?**

You can ask yourself, could you have completed the bachelor degree and done that Honours year at another university? If so, then it’s standalone. If not, it’s embedded. Standalone Honours are used as the Final GPA year along with the last two years of the preceding bachelor degree. With embedded Honours, it’s just the most recent three years of the degree that’s used.

**Exception:**
UQ please see their school entry for more information.

**I have done (or I am completing) an Honours Year. Will this be used for selection?**

We include Honours results in GPA calculations, however this can become problematic where the Honours year isn’t complete. Typically Honours results are only available at the end of the Honours year and we do a GPA calculation for allocating applicants to interviews in the middle of the year. So you would probably have a GPA calculated on your bachelor degree used for getting an interview and then when the Honours results are available, they would be used to
confirm any conditional or provisional offer you may have been made. However, if you do have results for Honours from Semester 1, these may be used in your GPA calculation together with results from the last two years of your bachelor degree.

Exception:
The University of Melbourne, if an Honours degree is not completed by mid-year in the year of application, it will not be used.
For UWA, if an Honours degree is not completed by mid-year in the year of application, it will not be used except to confirm any conditional or provisional offer you may have been made.
For Griffith University, if a standalone Honours degree is not completed by the time of application, it will not be used.

Check the relevant schools’ entries in this Guide and their websites to determine if your current Honours will be used in the calculation.

Will my Honours subject results or the overall Honours grade be used in my GPA calculation?
Where an Honours year is eligible to be included; if your Honours year consists of subjects which have results then these will be used to calculate your GPA. If there are no subject results, and only an overall Honours grade, then that will be used (refer to the GPA Conversion Table). If both subject results and an overall Honours grade are available, the best GPA will be used. Exception is UQ and Macquarie University, see their school entry for more information.

I have done (or I am completing) a Professional honours. Will this be used for selection?
Please see the school entry section, to see which medical schools will consider a professional honours and the conditions around it.

What is the minimum FTE (Full Time Equivalent) study load in semester one of current year study to be included in GPA calculations?

How do I allocate subjects to years to calculate my GPA?

First, read the documents at [www.gemsas.edu.au/gpa-calculations](http://www.gemsas.edu.au/gpa-calculations).

The way to calculate your GPA is to take the total credit points and divide by the years normally taken to do the degree. This will give you the number of credit points to allocate to each GPA year.

Example:
Assume that all the units you did were of equal credit point value.

If you did 24 units in a 3-year degree you would allocate 8 units a year.

Working backwards chronologically take the most recently-completed 8 units and allocate them to the Final GPA Year. Then take the next 8 units and allocate them to the Final-minus-1 GPA Year and the remaining 8 units will be the Final-minus-2 GPA Year.

How are subjects allocated to the three GPA years?

We allocate by the year in which subjects were taken and not the level of the subjects. We use full-time equivalent (FTE) study loads to allocate subjects to GPA years so we can take part-time, overloading and subjects of differing credit point values into consideration.

How are credits from prior study used in the GPA calculation?

See the GPA section on our website - [GPA guidelines](#).

Specified credit as per the definition, requires the key degree record to show the subject codes, names, weightings and results, which most results retrieved through ARTS do not show. So we then will use the most recent prior study up to the number of credit points awarded as credit for prior study. We do not use transcripts if results are available via ARTS.

Credits from prior study not at the same study level, will not be used in the GPA calculation (e.g. a bachelor degree with prior credits from a diploma).

Who uses postgraduate study?

The following schools use postgraduate study in GPA calculations –

- UWA, who use the most recent three years FTE of results regardless of whether they are complete (except honours which must be complete). Please see school entry for a list of the type of study included in the GPA.
- UQ, who accept completed postgraduate degrees (Graduate Diplomas, Postgraduate Diplomas, Masters and PhDs) as standalone key degrees.
- Griffith will calculate the GPA using the most recently completed key degree/s (a Masters by coursework; Masters by Research; or PhD) if completed by 31 July, 2018. Griffith allocates an overall GPA of 7.00 for completed PhDs and a 7.00 for each full time year of a completed Masters by Research (up to a maximum duration of two years). To complete the 3-FTE years of study when using a masters degree, the next most recently key degree final year/s will be included as required.
- ANU may include Masters by coursework results in the three-year GPA calculation.
- Macquarie University will calculate a GPA including Graduate Diploma and Coursework Masters, if this degree will be completed by 31 December the year of application. Completed Research Masters and PhD will be used in GPA calculations.

Exception: for The University of Queensland the GPA is calculated over the entire duration of the degree and is not divided into years.
• The University of Notre Dame Australia, Fremantle and Sydney, will calculate the GPA on the most recently completed 3-FTE years of study including qualifications at Graduate Diploma, and Masters by coursework level, if completed by 31 July 2018.

Please see the “Entry requirements – All applicants” section for more detailed information. All other schools use the most recently-completed undergraduate degree only in GPA calculations.

I’ve done a postgraduate degree, do I calculate my GPA on that or on my undergraduate degree?

Postgraduate qualifications such as Masters, PhDs, or postgraduate diplomas, may be included in GPA calculations. However, because schools do have different rules surrounding the use of these qualifications you should read the school entries in this Guide or contact your preferred schools directly for advice.

• Graduate Diploma, Postgraduate diploma, Masters and PhD results are currently used for the GPA calculation for admission to The University of Queensland (where these awards are deemed to be the ‘key degree’). See UQ’s school entry in this Guide for further information.

• For The University of Western Australia, Graduate Certificates, Graduate Diplomas and Masters by coursework are included in a 3-year GPA calculation. Applicants with a completed Masters by research will be awarded a 0.2 bonus to their overall GPA. Applicants with completed PhDs will be deemed a GPA of 7.0.

• Griffith awards a GPA of 7.00 for each equivalent full time year taken to complete a Masters by Research only (the remainder of the GPA will be taken from your most recently completed key degree) and an overall GPA of 7.00 is given for a completed PhD.

• ANU will award a bonus of 4% for successful and complete PhD studies at the time of application. Masters by research or honours will attract a 2% bonus. Masters by Coursework will not attract any bonus but may be included in the 3-year GPA calculation.

• The University of Notre Dame Australia, Fremantle and Sydney will include Graduate Diplomas and Masters by Coursework, completed by 31 July 2018, in the 3-year FTE GPA calculation.

• Macquarie University will calculate a GPA including Graduate Diploma and Coursework Masters, if this degree will be completed by 31 December the year of application. Completed Research Masters and PhD will be used in GPA calculations. See the Macquarie school entry in this Guide for further information.

I was interviewed at School X (my 3rd preference) and I did really well in the interview but I would rather be offered a place at School Y (my first preference). Is that possible?

You cannot be considered for an offer at a school above the preference of the school at which you were interviewed. They have already decided that either you don’t meet their minimum criteria or you were not ranked highly enough to get an interview offer. That status can’t change in the subsequent offer rounds despite how well you perform at interview.

What is the standardisation of interview scores?

The standardisation of interview scores ensures comparability between institutions. This is a statistical process which uses means and standard deviations from the different interview score distributions to put all the sets of scores onto the same scale.
What happens to my application after interview?

If you are not made an offer by the School at which you were interviewed, your application will remain in the system and will automatically be considered by your lower preference Schools (at which you are eligible for consideration) or by the School at which you were interviewed (for a later offer) until you are either offered a place or all preferences have been exhausted. If you are interviewed by your final preference School, your application cannot be considered by any other preference.

Can I get my interview score or ranking data?

GEMSAS is not able to provide any ranking data or interview scores. Many factors impact on who gets an offer and apart from the selection components used, there are also factors at play including your willingness to accept bonded or fee places, whether you are a rural or an Aboriginal or Torres Strait Islander applicant and whether or not you were eligible for bonuses or for special sub-quota places.

How are offers released?

All offers are decided on the same day and unsuccessful applicants are notified by email that day. Most medical schools advise successful applicants by email but for some medical schools offers are complex to generate, so these notifications may take a few days to reach you. Not receiving an email from GEMSAS usually means good news! Please make sure you have listed info@gemsas.edu.au as a ‘trusted sender’ in your email system.

How many offers will I receive?

Applicants are made only one offer each year. Once you have been made an offer, you are not eligible for subsequent round offers. If you decline your offer you are removed from the applicant pool and can apply again next year.

What is a conditional offer?

If you are made an offer of a place, and you have not completed your degree (or pre-requisites for the University of Melbourne or Macquarie University, or you are undertaking additional bachelor or postgraduate studies for UWA), then the offer will be conditional. When we get your final results we will calculate your final GPA and check that it meets any conditions the school may have put on your offer (e.g. maintaining a stated GPA). If it does, your offer will be confirmed, and if it doesn’t meet the conditions the offer will be withdrawn. Applicants enrolled in a combined degree and who receive a conditional offer for a place at the University of Melbourne or Macquarie University must complete both awards in order to have their offer confirmed. For The University of Notre Dame Australia, Fremantle or Sydney, please see the School specific requirements for applicants enrolled in a combined degree. If you studied at an ARTS university we will try to get your final results and confirmation of completion of your degree electronically.

If you studied at a non-ARTS university you will need to send an original transcript showing final results and evidence of completion of your degree.

I had better GPA and GAMSAT scores than a friend and they were offered a place at X University. Why wasn’t I offered a place?

Selection is very complex and many factors impact on whether or not you will get an offer. There are many reasons why an applicant with the same or worse GPA and GAMSAT scores as you may have been offered a place when you were not.

- They may have performed better in the interview and/or portfolio or personal statements
- They may have come from a rural background

GEMSAS
Version 1.4 31 March 2018
They may be of Aboriginal and/or Torres Strait Island descent
They may have received bonus points for postgraduate study
They may have received bonus points or come through a preferential entry scheme that recognises disadvantage
They may have accepted a BMP or Fee place where you indicated that you would not be prepared to accept one of these places
They may have accepted a place in a special sub-quota

I want to decline an offer of a place. Can I be considered for another place or receive another offer?
Applicants are made only one offer each year. Once you have been made an offer, you are not eligible for subsequent round offers. If you decline your offer you are removed from the applicant pool and can apply again next year.

I have not received an offer in the main round – what happens now?
If you do not receive an offer of a place in the main round of offers after interview, your application will remain in the system. Additional offers may be made during December and January after final results of applicants completing their qualifying degree are known.

It is NOT possible for applicants to change their preferences after the application closing date.

I need to courier transcript documents to GEMSAS. What is their address?
VTAC
Attention: GEMSAS Assessors
40 Park Street
South Melbourne, VIC 3205, Australia.

I need to courier other supporting documents (not transcripts) to GEMSAS. What is their address?
Please email info@gemsas.edu.au for instructions.

What happens if I am also applying for courses outside the GAMSAT Consortium medicine course?
There are many applicants for medical school places who will not be offered an interview or a place. If you have been offered a place in another course or by an institution not participating in GEMSAS and you intend to accept that place, then please be considerate of fellow applicants and withdraw your application for all GAMSAT Consortium courses as soon as possible. Withdraw by emailing info@gemsas.edu.au quoting your GAMSAT ID. You will be contacted to confirm your withdrawal.
How to Apply

1 Complete the online application form

To apply for admission to a course commencing in 2019, you must complete and submit the online Application Form – on the ApplyGEMSAS website – by no later than 5pm AEST/3pm AWST Thursday 31st May 2018. Please do not leave submission until the last minute as many others will also do this and system overloading can impact your ability to meet the deadline.

Late applications will NOT be accepted.

The application fee is paid by credit card, when completing the online application form. You do not need to complete your payment at the time of submission, but must do so by 5pm AEST/3pm AWST 5th June.

In 2018, for 2019 entry, the application fee is AUD$198.

Don’t forget to include info@gemsas.edu.au as a trusted email address, to ensure messages from the GEMSAS team are not treated as spam and sent to your Junk folder. We cannot be held responsible for any email not reaching or not being read by you.

2 Post your supporting documentation

After completing the online Application Form and making your payment, you may need to submit some hard copy documents. All additional documentation must be posted according to the dates listed below. Wherever possible they should be dispatched earlier. Please refer to the list below for information about where you need to send the required documentation.

All applicants who intend to post documentation, please use a postal service that will ensure that we receive your documentation within 5-7 days, e.g. via Airmail or a courier service.

ORIGINAL ACADEMIC TRANSCRIPTS
Due date: Posted no later than 5.00pm your time on Tuesday 12th June 2018

If any of your tertiary studies were undertaken at a university not listed in Appendix A (as an institution whose results can be retrieved through ARTS), you MUST send an original transcript for all such studies along with a copy of your printed Education coversheet to:

GEMSAS Operations
PO Box 2025
South Melbourne
VIC 3205

Any qualification undertaken in a language other than English must be documented by a certified copy of the original transcript, accompanied by an officially translated original (by a NAATI translator), in English.

Transcripts will be returned at no cost to the applicant for normal domestic mail. A paid premium service is available if you wish to have your transcripts couriered domestically or internationally. Please see coversheets for details.
ADDITIONAL DOCUMENTATION (if required)
Due date: Posted no later than 5.00pm your time on Tuesday 12\textsuperscript{th} June 2018

The universities listed in the tables on pages 7 to 13 require applicants to submit additional documents. Additional documentation for Deakin University should be sent along with a copy of your printed coversheet to:

GEMSAS Processing
PO Box 522
Ferny Hills DC
QLD 4055

Additional supporting documentation for The University of Melbourne (Graduate Access Melbourne Scheme), as outlined on page 12, should be submitted through the university’s online webform.

Due date: 5:00pm EST on Thursday 31\textsuperscript{st} May 2018.

SUPPORTING DOCUMENTS FOR APPLICANTS FROM A RURAL BACKGROUND
Due date: Posted no later than 5.00pm your time on Friday 22\textsuperscript{nd} June 2018

All applicants who have completed the rural background questions in the Application Form must send their supporting documentation along with a copy of your printed coversheet to:

GEMSAS Processing
PO Box 522
Ferny Hills DC
QLD 4055
FAQs about completing your application

I didn’t receive confirmation of my submitted information or my payment

After completing the Application Form you will need to SUBMIT your application. You will then be taken to the Deakin University payment system to make your payment. Once your payment has been made successfully you will be shown a receipt screen.

Please note your receipt number or print this screen for your records. If you are not able to complete these steps, please email info@gemsas.edu.au.

You will not receive an email from GEMSAS confirming your application has been submitted. You will receive an email with a receipt number once payment has been made and this is confirmation that your application has been successfully submitted.

I have previously applied through GEMSAS

If you have previously applied through GEMSAS, you are still required to register online and complete and submit a new application and send in ALL documentation (except supporting documentation for some Deakin bonuses, see page 8).

Do I need to pay for each medical school preference?

You pay a single fee of $198 and this covers up to six preferences.

I can’t see my coversheets for submitting supporting documentation

As your application progresses, a menu item “Coversheets” will appear on the left of your screen. Coversheets are generated according to your selections and responses. You can view the coversheets that you will be required to submit with supporting documentation, but will only be able to access them once you have submitted and paid for your application. To access your coversheets, after you have submitted and paid for your application, log into your application and select the Coversheets button on the Field of Study page.

If you are unsure if you should supply supporting documentation, please check pages 7-13 of this guide.

If you cannot save or print any of the documents mentioned above, please email info@gemsas.edu.au.

Do I still need to post the Education coversheet if I have no supporting documentation?

The Education coversheet will only be generated if you have selected a university that does not participate in ARTS, for ANY of your study. The Education coversheet will not be generated if no original transcripts are required to be sent in.

I don’t have an original transcript; can I submit a certified copy?

No, only original transcripts may be supplied where these are required. Scanned or photocopied transcripts, including certified copies, are not acceptable.

A statement of results is not acceptable and is not considered in place of a full transcript, nor is a printout of an academic record.

Any qualification undertaken in a language other than English must be documented by a certified copy of the original transcript, accompanied by an officially translated original (by a NAATI translator), in English.

All applicants who intend to post documentation, please use a postal service that will ensure that we receive your documentation within 5-7 days, e.g. via Airmail or a courier service.
I’m still studying this year; do I need to submit a 2018 transcript?

Applicants completing their qualifying degree in 2018 will be assessed on the basis of the information available at the time of application. Semester 1 (or Trimester 1), 2018 results will be included in the assessment for interview if they are available at the time of assessment.

- For the University of Melbourne, Semester 1 results will not be used in the provisional GPA if they do not equate to at least 0.375 EFTS Load in that semester. If an Honours degree is not completed by mid-year in the year of application, it will not be used
- For ANU, if an Honours degree is not completed by mid-year in the year of application, first semester results may be used in the GPA calculation
- For ANU and the University of Wollongong, Semester 1 results will not be used in the provisional GPA if they do not equate to at least 0.375 EFTS Load in that semester
- For Deakin University, Semester 1 results will not be used in the provisional GPA if they do not equate to at least 0.25 EFTS Load in that semester
- For the University of Western Australia, Semester 1 results will not be used in the provisional GPA if they do not equate to more than 0.25 EFTS Load in that semester, unless older/additional study is also available

If your results are from an ARTS university, your Semester 1, 2018 results will be electronically retrieved during June and July. If you have any unpaid fees at your university we will not be able to retrieve your results until these have been attended to. Please do this ASAP.

For study at a non-ARTS university, in Semester 1, 2018 please supply an original transcript as soon as possible to the GEMSAS Operations PO Box. Please post by 25 July noting that the documents must reach us within 5-7 days. Please use a postal service that will meet this deadline.

Applicants completing their degree in 2018 will only be offered an interview if the GPA at the time of application (with 2018 results to date) meets the required level.

Such applicants should also note that while decisions on interview offers will be made on the basis of results available at the time of application, final 2018 results may be used to determine offers of a place. Refer to each school’s entry in this Guide for more information.

Exchange studies and transcripts

Exchange studies are part of your degree and therefore we use the results from those studies in calculating your GPA. Exchange studies may appear on your home university transcript as pass/fail subjects, but we use your actual results to calculate your GPA.

You must obtain and supply an original transcript for any exchange studies you have done.

Exception:
The University of Western Australia will normally use the results that appear on the home university’s transcript (in most cases this is an ungraded pass or an ungraded fail). Please see the Faculty website for further information and for exceptions to this general rule.

Any qualification undertaken in a language other than English must be documented by a certified copy of the original transcript, accompanied by an officially translated original (by a NAATI translator), in English.

My declared study and/or results have changed. What should I do?

Ensure you inform GEMSAS ASAP if there is any change to your study, especially your key degree.
Ensure you inform GEMSAS ASAP if there is an update to a Semester 1 or Semester 2 result or if there is a delay in obtaining a Semester 1 or Semester 2 result (e.g. sitting a special or deferred exam), so GEMSAS is made aware of the need to retrieve these results.

Note that ARTS results are retrieved on request and unless you notify us of updates, we will not request ARTS results outside of the scheduled times.

What study should I declare in the application?

ALL tertiary study is to be declared (this includes completed and incomplete study), whether relevant or not to your key degree.

I have lodged through GEMSAS two or more applications for medicine

Only your first submitted application will be processed, regardless of which application has been paid for.

How do I submit portfolios for The University of Notre Dame, Australia and the University of Wollongong, and personal statement for Macquarie University?

Portfolios and personal statements are completed in the application form and submitted once you submit your application. To avoid any potential loss of data due to session closure, we suggest you complete your portfolio or personal statement offline first and copy it into the live online application once you are satisfied with your work. As character count methods differ between programs you will need to check your online portfolio using the review of responses generated PDF. If your portfolio was not copied in its entirety you may need to do some further online editing to reduce the character count.

How do I know if my supporting documents have arrived?

It is strongly recommended that you use a postal service which provides a tracking mechanism (Registered Post, Express Post, courier, etc.), so that you can be certain your supporting documents have arrived at GEMSAS.

For non-transcript documents sent to the Ferny Hills PO Box, you may wish to include a reply-paid envelope with your supporting documents. This will be returned to you when your documents are processed as confirmation that they have been received. Note that unless you also provide a letter requesting the return of the documents, this envelope will be returned to you empty.

If you have sent documentation to the Ferny Hills PO box, you can email in July to ask if your documentation has been received.

Can I have my documentation returned?

Transcripts will be returned at no cost to the applicant for normal domestic mail, see page 29 for details. A paid premium service is available if you wish to have your transcripts couriered domestically or internationally. Please see coversheets for details.

Any other supporting documents will be returned at your request. When you post these documents you need to include a note requesting to have the documents returned and must include a suitable reply paid envelope.

Rural and bonus documentation will be returned, in early August, after the assessment is complete and only if a reply paid envelope has been included with the documentation.
How to calculate your GPA

In general this information applies to all schools, but please note local variations outlined on university websites and in the university specific information pages in this Guide.

Before you calculate your GPA, you should read the sections ‘Before You Apply’ and ‘How to Apply’.

International Applications

International applicants must apply directly to all universities at which they wish to study. GEMSAS is receiving and processing applications from domestic applicants only.
## How can you assist GEMSAS?

<table>
<thead>
<tr>
<th>Section</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>PRINT AND SAVE</strong></td>
<td>Once you have completed your application, and prior to submission, we recommend you both save and print your “Review of Responses” and check this thoroughly to ensure the information you have supplied and selected, and your preferences, are correct and accurately convey your intentions. No changes can be made once your application has been submitted.</td>
</tr>
<tr>
<td><strong>SUBMIT YOUR APPLICATION ON TIME</strong></td>
<td>Ensure your online application is submitted before the deadline, (once it has been completed and reviewed). No late submissions will be accepted. <strong>Closing time is 5pm AEST /3pm AWST 31 May.</strong> Only your first submitted application will be processed, regardless of which application has been paid for.</td>
</tr>
<tr>
<td><strong>TECHNICAL ISSUES?</strong></td>
<td>Alert GEMSAS ASAP if there is a technical issue (or any other issue) with your online application, so the issue can be resolved before the submission deadline.</td>
</tr>
<tr>
<td><strong>PORTFOLIO OR PERSONAL STATEMENT SECURITY</strong></td>
<td>To avoid any potential loss of data due to session closure, we suggest you complete your portfolio or personal statement offline first and copy it into the live online application once you are satisfied with your work. As character count methods differ between programs you will need to check your online portfolio using the review of responses generated PDF. If your portfolio was not copied in its entirety you may need to do some further online editing to reduce the character count. Use only plain text. Some characters such as quotation marks may be removed for security and formatting reasons.</td>
</tr>
<tr>
<td><strong>DECLARE ALL TERTIARY STUDIES</strong></td>
<td>Ensure you declare all your tertiary study in the application (this includes complete and incomplete study).</td>
</tr>
<tr>
<td><strong>UNPAID FEES?</strong></td>
<td>For study at a university that participates in ARTS, if you have any unpaid fees we will not be able to automatically retrieve your results until these have been attended to. <strong>Please do this ASAP.</strong></td>
</tr>
<tr>
<td><strong>DOCUMENTATION AND TRANSCRIPTS</strong></td>
<td>Ensure documentation is sent by due dates (if required), with coversheets attached. All applicants who intend to post documentation, please use a postal service that will ensure that we receive your documentation within 5-7 days, e.g. via Airmail or a courier service. Ensure original transcripts are sent to GEMSAS for all study at non-ARTS institutions including those at which you undertook exchange studies. You must obtain and supply an original transcript for any exchange studies you have done. Any qualification undertaken in a language other than English must be documented by a certified copy of the original transcript, accompanied by an officially translated original (by a NAATI translator), in English. Ensure you inform GEMSAS if there is a delay in obtaining a Semester 1 or Semester 2 results (e.g. sitting a special or deferred exam), so GEMSAS is made aware of the need to retrieve these results. Please send only those documents that have been specifically requested. No additional documentation or general correspondence should be sent to the GEMSAS Processing PO Box. Note that there are two separate PO Boxes, ensure you send your documents to the appropriate one. Your contact details need to be operational and GEMSAS informed if they are changed.</td>
</tr>
</tbody>
</table>
If there is a delay in obtaining final results, (if you have been made a conditional offer of a place), alert GEMSAS ASAP (e.g. sitting a special exam). Please ensure you alert GEMSAS well before the 31 December 2018 deadline.

Completions (Academic transcript showing that you have completed your degree) must be sent to GEMSAS ASAP (**by 31 December 2018**) if you have been made a conditional offer of a place and you studied at a non-ARTS University.

---

**ENQUIRIES**

Read the FAQs and the Admission guide before submitting an enquiry via [info@gemsas.edu.au](mailto:info@gemsas.edu.au)

---

**YOUR GPA**

Please email your full name and GAMSAT ID when requesting your GPA **in mid-August**.

---

**TIMING AND OFFERS**

Universities may not process your course completions as quickly as is needed by GEMSAS to get your offer confirmed in time. You can assist by contacting your central student administration to impress upon them the importance of getting your completion loaded into their student system and made available through ARTS.

For some universities you will need to give them permission to send your completion data to GEMSAS OR you can post an original academic transcript showing that your degree is completed to the GEMSAS PO Box **by 31 December 2018**.

**Bachelor Degree/ GPA**

The ANU does not have a preferred Bachelor degree, accepting applicants from a range of different study backgrounds.

A minimum weighted GPA of 5.6 is required to be considered for interview.

The weighted GPA is calculated from the last three full-time-equivalent (FTE) years of the most recently completed Bachelor degree (including honours year if applicable). Successive years are weighted x3, x2, and x1 so that the greatest weighting is applied to the most recent results. Masters by coursework results may be included in GPA calculations.

Your qualifying degree/s must be complete or due to be complete by the 31st December in the year of application. Applicants completing their qualifying degree in the year of application must have at least 0.375 FTE of their Semester 1 2018 results available to be used in the Final x3 GPA calculation. If 0.375 FTE results are not available, your wGPA will be calculated using your Final x2 and Final x1 years only.

Two-year accelerated Bachelor degrees will be accepted but must be complete at the time of application.

The ANU does not accept 1 or 2-year conversion degrees.

The ANU does not include Graduate Diplomas or Graduate Certificates as part of a GPA calculation.

**Currency of qualification**

Applicants are required to have completed their Bachelor degree within 10 years of the date of application. Applicants who have completed their Bachelor degree outside of the 10 year period will only be considered if there is evidence of continuing tertiary level academic study in the 10 years prior to the date of application - as evidenced by successful completion of at least 0.5 years full-time equivalent (FTE) study, as either full or part time (i.e. 6 months full time or 1 year part time) enrolment of undergraduate or postgraduate study in a federally approved and tertiary accredited program.

**GAMSAT**

Applicants must have achieved a minimum score of 50 in each section of the GAMSAT and a minimum Overall Score of 55 to be considered for interview.

**Bonuses / Special entry schemes**

A percentage bonus for one of the following degrees: Honours, Master by Research, or PhD may be applied to the combined weighted GPA and Overall GAMSAT score.
| Indigenous Applicants | Applicants from Aboriginal and/or Torres Strait Islander descent may apply directly to the ANU by completing the [Online Application Form](#). Applicants are also required to send the below documentation to [admissions.medicalschool@anu.edu.au](mailto:admissions.medicalschool@anu.edu.au).

- Official Bachelor Degree transcript
- Official transcript/s for any post graduate degree/s (if applicable)
- Official GAMSAT result
- [Medical School Aboriginal or Torres Strait Islander Declaration Form](#)

Applications will open 30 April 2018 and close 30 June 2018. If you are from a rural background please indicate this in your online application and provide supporting documentation.

The Admissions procedure for Aboriginal and/or Torres Strait Islander applicants will follow similar procedures to that of the domestic GEMSAS process. Applicants will be assessed on their GPA and GAMSAT and may be offered an interview. Upon completion of Interviews, successful applicants will be offered a place.

| Rural entry | Twenty-eight (28) per cent of the ANU intake of medical students is available to applicants of rural background; i.e. have spent a minimum of 5 consecutive or 10 cumulative years residing in a rural location. Applicants with a rural background may be preferentially moved up the rank order of students.

| Interview | Applicants for interview are ranked based on a score derived from combining weighted GPA and overall GAMSAT score, using a weighting of 50:50.

Interviews for domestic applicants are conducted in late September in Canberra. Interviews will involve multiple interview stations.

| Offers | Offers will be considered on a final ranking using a 50:50 combination of

- Weighted GPA (25%) and GAMSAT score (25%)
- Interview score 50%

Meeting the minimum criteria does not guarantee admission into the program.

| International Applicants | International applicants should apply online directly to the ANU Medical School at [http://medicalschool.anu.edu.au/study/degrees/mchd/how-apply](http://medicalschool.anu.edu.au/study/degrees/mchd/how-apply)

Applicants will be assessed in line with the domestic procedures, using the GPA from their Bachelor Degree and either a valid MCAT (minimum score of 125 in each section) or GAMSAT (minimum score of 55 with no less than 50 in each section).

International applicants must meet ANU English Language requirements. [http://medicalschool.anu.edu.au/study/degrees/mchd/how-apply](http://medicalschool.anu.edu.au/study/degrees/mchd/how-apply)

| Scholarships | The ANU is pleased to offer two Bill Nicholes “Willigobung” scholarships for Medicine for eligible students with a minimum GPA of 7.0 in their final year. One scholarship is reserved for a student from rural background. Please contact [admissions.medicalschool@anu.edu.au](mailto:admissions.medicalschool@anu.edu.au) for further details.

**Bachelor Degree/ GPA**  
A minimum weighted GPA of 5.0 is required. The GPA is to be based on academic grades obtained during the final three full-time equivalent years of the most recent undergraduate degree (including an Honours year if applicable). Years are progressively weighted x1, x2 and x3, to give greater weight to the most recent results.

The completed undergraduate degree must be from an Australian university or a Higher Education Institution recognised by the Australian Qualifications Framework, or equivalent as deemed by Deakin University.

**Deakin does not recognise** 2-year bachelor degrees or 1 year conversion degrees for the purposes of admission to the medical course, however accelerated degrees (3FTE) completed over 2 years are accepted.

**Early exit from a combined bachelor degree**  
Applicants will meet Deakin University’s admission requirement if they have completed 3FTE when taking an early exit from a combined bachelor degree.

If the applicant takes an early exit from the combined bachelor degree, the GPA will be recalculated and if applicable, made a conditional offer of a place. This is dependent on the successful completion and evidence via an official transcript for the single bachelor degree.

Where applicants are in the final year of their degree, a GPA will be calculated based on at least 0.25FTE. However if less than 0.25FTE is available for the final year, these final year results will not be used in the GPA calculation. The GPA will then be calculated from the Final-minus-1 and Final-minus-2 years only.

**Currency of qualification**  
Applicants are required to have been awarded their undergraduate degree within 10 years of their projected commencement date. Applicants whose undergraduate degree was completed outside this 10 year period may be considered for admission only if they have successfully completed the equivalent of one year of tertiary study (i.e. 1.0FTE) at Honours or Graduate Diploma level, or higher, at an Australian University or Higher Education Institution recognised by the Australian Qualifications Framework, or at a recognised International University deemed by Deakin. This postgraduate study must have been completed at the time of application and also completed within the 10 years of the projected commencement date of the course.

**GAMSAT**  
A minimum GAMSAT Overall Score of 50 with a minimum of 50 in each of the three Sections is required to be considered for interview.

**Bonuses / Special entry schemes**  
Invitations to interview will be sent to a maximum of 220 applicants based on GAMSAT + GPA Score (50:50) with additional weighting for:

- Rural/Regional residency
- Prior clinical experience in a health discipline
### Indigenous Applicants

Up to 5% of domestic places will be held for Aboriginal or Torres Strait Islander (ATSI) applicants who apply through the Indigenous Entry Stream (IES). ATSI applicants can apply either via GEMSAS or the IES. See school website for details: [https://www.deakin.edu.au/doctor-medicine](https://www.deakin.edu.au/doctor-medicine)

### English Language Requirement

A domestic applicant from a non-English speaking background (NESB) must satisfy the English Language Requirements (ELR) for Deakin Coursework Programs in order for their application to be considered. The ELR requirements for domestic NESB students are the same as those for international NESB applicants and they can be found at the following link:

### Interview

A maximum of 220 applicants will be interviewed. Interviews will be held in Geelong during the week commencing 10 September 2018. Interviewees will be selected based on GAMSAT and weighted GPA (50:50). The ranking for interview will include additional bonus points for:

- Relevant Prior Clinical experience (4%);
- Work Experience (2%);
- Deakin Study Bonus (4%);
- Rural/Regional residency (City of Greater Geelong and ASGC-RA 2 (4%) ASGC-RA3-5 (8%));
- Demonstration of financial disadvantage during undergraduate degree (2%).

Interviews will use the Multiple Mini Interview (MMI) format in which applicants are interviewed at up to 10 consecutive stations with 5 minutes for each interaction. Qualities to be assessed at interview include communication skills, professionalism, social awareness, ethical behaviour, and commitment to rural and regional practice.

### Offers

The final ranked list, from which offers will be progressively made, is based on an entry score calculation which weights the GPA (25%), GAMSAT (25%) and Interview (50%). Additional bonus points, previously listed, will be included in this calculation. Offers will be made during November 2018–January 2019.

#### Conditional Offers

Offers for applicants in the final year of their degree will be provisional. Applicants who are in the process of completing their undergraduate degree MUST provide their finalised transcript to GEMSAS by 31 December 2018.

Applicants who receive a conditional offer will have their overall GPA recalculated. Applicants will be expected to maintain or exceed their overall GPA used when shortlisted for an offer. An applicant whose overall GPA drops, but only by 0.4 or less will have their offer confirmed. If an applicant’s GPA decreases by more than 0.4 or conditions aren’t met by the specified date on the offer letter the offer will be withdrawn.

**Please note that deferrals are not permitted.**

### International students

International applicants may apply with GAMSAT or MCAT scores. The minimum GAMSAT score is at least 50 in each section and a score of at least 50 overall. The minimum score for MCAT (taken from January 2017 onwards) is 125 in each section. GAMSAT and/or MCAT results must be obtained within 2 years preceding the application. Bonuses will be awarded for relevant prior clinical and/or work experience. Students who have undertaken their undergraduate studies in a
non-English speaking country must, in addition, obtain a minimum overall IELTS score of 7.0 (with no band less than 7.0). Applicants whose undergraduate degree was taught and assessed entirely in English, no more than 2 years prior to enrolment at Deakin, are considered as having met the English language requirement. A combination of GAMSAT/MCAT score, GPA score and bonuses will be taken into consideration when selecting applicants for interview.

International applicants must apply directly to International Admissions at Deakin University: https://www.deakin.edu.au/doctor-medicine

Doctor of Medicine (MD)  

Domestic Applicants:  
Successful Applicants to Griffith University will be admitted to the AQF level 9, Advanced Master’s Graduate Entry Medical Program, the Doctor of Medicine (MD).

International Applicants:  
International Applicants are encouraged to contact Griffith International for more information regarding applying to the Doctor of Medicine (MD) Program.

For further information: Phone +61 7 373 56425 or Web: www.griffith.edu.au/international

Campus and Place Type Preference

From 2019, Griffith University will be offering 50 additional CSP places (non-bonded CSP and bonded CSP (BMP)) to be located at the Sunshine Coast campus*.

Students will be placed at either the Gold Coast campus (90 places) or the Sunshine Coast campus (50 places) at the time of the offer round.

At the time of application, applicants must specify the types of places (non-bonded CSP and/or bonded CSP (BMP) they wish to be considered for in preferred order. They must also note their preference order for the Gold Coast campus and/or the Sunshine Coast campus. Please note that this preference will be considered, but not guaranteed as quotas apply.

Campus preferences have no influence on the decision for offer.

* International students will not be allocated to the Sunshine Coast campus.

Bachelor Degree/GPA

Applicants must have achieved a minimum GPA of 5.0 in their most recently completed Bachelor’s (or being completed by the end of the year) or other most recently completed key degree.

A key degree is a Bachelor degree; or Honours degree; or Masters (coursework or research); or a PhD. Graduate Certificates or Graduate Diplomas are NOT considered key degrees and do not contribute to the overall GPA.

Griffith recognises that some students may undertake other pathways from the standard 3 year and 4 year bachelor degrees. Please contact Griffith University (medicine@griffith.edu.au) for more information on your eligibility and when to apply.

Applicants are ranked for interview based on the selections rank derived from a 50:50 combination of an unweighted GPA (converted to a percentage) and the overall GAMSAT score (also from 100). This combination rank means that a lower GAMSAT score may be offset by a higher GPA and vice versa (within the minimum requirement limits).

For a Bachelor degree, the GPA will be calculated using the GEMSAS grading schema and will be calculated over the final three years of full-time study.

Applicants who are in the final year of a Bachelor degree at the time of application will have a GPA calculated over all grades available to date.
For a completed **Professional Honours** qualification, please contact Griffith University (medicine@griffith.edu.au).

The GPA for a completed **standalone Honours** degree will have a final year GPA based on the classification awarded (as per the conversion table in this guide) or subject results and best GPA used. The balance of the GPA calculation will be based on the final two years of the Bachelor degree.

For an **embedded Honours** degree, the GPA will be calculated using the final year subject results or the classification awarded (if completed) and the best GPA used. The balance of the GPA will be based on the 3rd and 2nd years of subject results.

Completed **Masters by Research Only** (where the degree is entirely non-graded) will receive a GPA of 7.0 for the duration of equivalent full-time study (up to a maximum of two years). The balance of the GPA calculation will be based on the final one or two years of the next most recently completed key degree.

Completed **Masters by Coursework, or a combination of coursework and research**, will have a GPA calculated from the graded components of the program for the duration of equivalent full-time years of study in the program, with the balance of the GPA calculation being based on the final one or two years of the next most recently completed key degree.

Completed **PhDs** receive an overall GPA of 7.0.

**Currency of qualification**

The key degree must have been completed within 10 years of the projected commencement date. Applicants whose key degree was completed outside the 10-year period are considered for admission if they have completed, with a passing GPA, the equivalent of 1 year’s full time tertiary level studies within the past 10 years. This study does not need to be a completed program of study as long as the duration is equivalent to one year or more full time. The 10 years is calculated from when you completed your degree not your graduation date.

**GAMSAT**

Applicants must achieve a minimum score of 50 in each GAMSAT section. As a result of using a 50:50 GPA/GAMSAT selections methodology, there is no discrete cut-off point for GAMSAT.

**Aboriginal and Torres Strait Islander Applicants**

Griffith upholds a commitment to support people of Aboriginal and Torres Strait Islander descent to pursue a medical career. All Aboriginal and Torres Strait Islander peoples who are committed to a career in medicine are encouraged to apply via GEMSAS. Please email medicine@griffith.edu.au for further details about the Griffith University Pathway for Aboriginal and Torres Strait Islander applicants.

**Rural Applicants**

**Griffith University Rural Priority Access Scheme (GURPAS):** A proportion of the Griffith University medical intake will include students from a rural background RA2-5. Competitive applicants who meet the rural criteria will be given priority access to Griffith University Doctor of Medicine program.

International students

Griffith University will be accepting applications from international students for 2018 entry. There are a total of 30 International places available, including those reserved for international students transitioning from the B. Medical Science pathways program.

International students will not be allocated to the Sunshine Coast campus. Only international students who are resident outside Australia may apply using an MCAT score. The minimum MCAT cut-off score is: 123/123/123/123 (492). MCAT scores are required to be no more than two years old at the time of application.

**Interview**

The interview or Griffith University Multiple Station Admissions Assessment (GUMSAA) is designed to assess personal qualities deemed desirable in medical students and medical practitioners and will take the form of scenario based, multi-station interviews.
Applicants will be invited to GUMSAA based on an interview selections rank derived from a 50:50 combination of the unweighted GPA (converted to a percentage) and the overall GAMSAT score.

GUMSAA for 2019 entry is scheduled to be held on **Wednesday September 19th 2018.**

**NOTE:** Griffith University will not offer places in Medicine to any candidate who has achieved an interview score of more than one standard deviation below the mean score, wherever the interview was undertaken.

**Offers**

Offers are made based on an overall ranking of interviewed applicants. This ranking is calculated as 50:50 combination of the interview selections rank (50:50 GPA/GAMSAT) and the overall Interview score (converted to a percentage).

The main round of offers will be made in early November, but if required, ‘top up’ offers will be made in subsequent offer rounds.

The offer letter will state both place type and campus.

Applicants who are in the final year of a Bachelor degree at the time offers are made will receive an offer conditional upon them completing their degree before the end of the year while maintaining a GPA above the minimum requirement of 5.00.

**Other requirements**

Students will need to have by the date of enrolment in mid-January:

- documentation regarding vaccination status;
- completed a Nationally Accredited Training Provider Registered First Aid and CPR Course;
- obtained a National Police Check Certificate; and
- obtained a Queensland Blue Card.

**English Language Proficiency**

If English is not your first language and

- Your secondary education was not taught and assessed in English (in one of the countries listed below where English is the native or first language); or

- Your tertiary qualifications have not been taught and assessed in English (in one of the countries listed below, where English is the native or first language):
  - Australia
  - Canada
  - New Zealand
  - Republic of Ireland
  - South Africa
  - United Kingdom
  - United States of America.

You are required to demonstrate your English Language Proficiency by :

1. Providing official evidence of study in a recognised degree program undertaken for two years in the five years prior to commencement at Griffith at an accredited University at which English is the primary language of instruction and assessment in the program undertaken; or

2. A minimum overall band score of 7.0 on IELTS (Academic) with no sub-score of less than 7.0 and the English test results must be no more than two years old.
### Deferrals
Griffith only allows the deferral of the commencement of study for one year when there are documented exceptional circumstances that could not have been foreseen at the time of application.

All deferrals must be requested in writing and will be reviewed on a case-by-case basis by the Dean of Medicine (medicine@griffith.edu.au).

### Failure to Enrol
An offer of a place is only available for that year’s intake. An applicant who does not respond to their offer, or accepts their offer but does not enrol, must reapply to undertake the program in a subsequent year.

Doctor of Medicine selection policies

All applicants should refer to the Macquarie MD website for detailed information on the program including selection and program policies.

Australian and international clinical placements

The Macquarie MD requires students to attend clinical placements in both Australian and international settings.

Bachelor degree and GPA

Bachelor degree

Applicants must have completed a bachelor degree or be in their final year of a bachelor degree (scheduled for completion by 31 December in the year of application). The bachelor degree must be:

- A level 7 Australian Qualifications Framework (AQF) qualification, or an equivalent overseas degree listed in the National Office of Overseas Skills Recognition (AEI-NOOSR) Guide

Bachelor degrees must be completed less than 10 years from intended enrolment unless the applicant meets accepted postgraduate study requirements.

Only the following postgraduate study is accepted:

- Graduate Diploma
- Coursework Masters
- Research Masters
- PhD

Postgraduate coursework (Graduate Diploma and Coursework Masters) must be:

- Complete or scheduled for completion by 31 December in the year of application
- Completed less than 10 years from intended enrolment

Postgraduate research (Research Masters and PhD) must be:

- Complete at the time of application
- Completed less than 10 years from intended enrolment

Grade Point Average (GPA)

Applicants are required to have achieved:

- A minimum weighted GPA of 5.0 out of 7.0 to be considered for interview.

Note that entry is competitive and a GPA required for interview selection is likely to be significantly higher than 5.0 out of 7.0.

GPA is calculated through consideration of relevant tertiary transcripts from completed programs or programs scheduled for completion by 31 December in the year of application.

The GPA calculation considers full time equivalent (FTE) years of study. The weightings used give higher level results greater value.
Applicants with bachelor degree only will have their GPA calculated with the following weightings:

- Final year (most recent FTE year of study) = \( x \times 3 \)
- Final-1 (second most recent FTE year of study) = \( x \times 2 \)
- Final-2 (third most recent FTE year of study) = \( x \times 1 \)

Applicants with a bachelor degree and standalone honours year will have their GPA calculated with the following weightings:

- Final year (honours) = \( x \times 3 \)
- Final-1 (most recent FTE year of bachelor degree) = \( x \times 2 \)
- Final-2 (second most recent FTE year of bachelor degree) = \( x \times 1 \)

Applicants with postgraduate coursework (Graduate Diploma and Masters) will have their GPA calculated with the following weightings:

- Postgraduate coursework (considered as whole) = \( x \times 3 \)
- Final-1 (most recent FTE year of bachelor degree or standalone honours year) = \( x \times 2 \)
- Final-2 (second most recent FTE year of bachelor degree or most recent year of bachelor degree if honours is used) = \( x \times 1 \)

Applicants with completed postgraduate research (Research Masters or PhD) will have their GPA calculated with the following weightings:

- Postgraduate research (considered as whole, given maximum GPA value of 7.0) = \( x \times 3 \)
- Final-1 (most recent FTE year of bachelor degree or standalone honours year) = \( x \times 2 \)
- Final-2 (second most recent FTE year of bachelor degree or most recent year of bachelor degree if honours is used) = \( x \times 1 \)

Note that non-award units will not be used as part of the GPA calculation.

---

**GAMSAT**

All domestic applicants must submit GAMSAT scores of:

- A minimum overall score of 50
- A minimum of 50 in each of the three sections

GAMSAT scores submitted must be within two years of intended enrolment.

Please note that an alternative Indigenous Pathway is also available, with details provided in a later section.

---

**Prerequisites**

Applicants must have successfully completed approved prerequisite tertiary units or groups of units in:

- Human Anatomy
- Human Physiology

Prerequisites must be completed less than 10 years from intended enrolment.

Non-award units can be used to meet prerequisites but will not be used as part of the GPA calculation.

Only approved prerequisite units will be accepted. Assessment of units will take place in April. To check if you have met the prerequisite study requirements for the Macquarie MD visit [Prerequisite Checker](#).

---

**Personal Statement**

All applicants must submit a Personal Statement. The personal statement involves responding to a series of targeted questions relating to the program.

Personal Statements are not graded but are evaluated as either satisfactory or unsatisfactory. Only applicants who have met eligibility requirements and with satisfactory Personal Statements can progress to interview.
<table>
<thead>
<tr>
<th>Currency of qualification</th>
<th>Qualifications considered for admission must have been completed within 10 years of intended enrolment. Prerequisite units must also have been completed within 10 years of intended enrolment.</th>
</tr>
</thead>
</table>
| English language requirements | Domestic and international applicants will meet English language requirements if their secondary and tertiary qualification(s) have been taught and assessed in English in a country where English is the native or first language.  
**IELTS**  
Domestic and international applicants who do not meet the above English language requirements must provide evidence of meeting the following International English Language Testing System (IELTS) scores:  
- A minimum overall score of 7.0  
- A minimum score of 7.0 in each band  
Minimum IELTS scores must be achieved in one sitting of the test less than two years from intended enrolment. |
| Bonus Points | A 3% bonus will be applied to the weighted GPA of the following cohorts:  
- Indigenous applicants  
- Rural applicants  
- Macquarie University Bachelor of Clinical Science applicants  
Students who belong to more than one of the above cohorts will have a maximum 5% bonus applied to their weighted GPA. Please note that bonus points are not available to International applicants. |
| Indigenous Pathway | All Indigenous applicants will have a 3% bonus applied to their weighted GPA.  
Indigenous applicants can choose to apply through the standard pathway and / or the Indigenous Pathway. The Indigenous Pathway offers:  
- Case-by-case application consideration for interview and offer  
- Optional submission of GAMSAT results  
- Support through the interview process  
To be eligible for the Indigenous Pathway applicants are required to demonstrate:  
- Proof of Aboriginality (Macquarie University will liaise directly with candidates who identify as Aboriginal or Torres Strait Islander). Please note that this pathway is not available to International applicants. |
| Campus and place type preference | Macquarie University  
Balaclava Road, North Ryde  
NSW, 2109, Australia  
All places in the Macquarie University Doctor of Medicine are full-fee.  
The MD program requires students to attend clinical placements in both Australian and international settings. |
| Interview | **Interview selection**  
Applicants will be ranked and selected for interview based on the following criteria:  
- Meeting minimum eligibility requirements outlined above  
- 50% weighted GPA  
- 50% GAMSAT (50% MCAT for international applicants residing outside of Australia only) |
- Personal statement evaluated as satisfactory

Up to 20 interview places will be reserved for Macquarie University Bachelor of Clinical Science graduates / final year students.

**Interview format**

Interviews will be conducted in the Multiple Mini Interview (MMI) format, which will see applicants rotate through a series of short interview stations.

International applicants will be offered a modified MMI conducted in-person or via videoconference.

MMIs for domestic applicants will be on Saturday 22 September 2018.

---

### Offer

**Offer selection**

Applicants will be ranked and selected for offer based on the following:

- 50% GAMSAT (50% MCAT for international applicants residing outside of Australia only)
- 50% MMI
- GPA will be used as a tie-breaker should applicants be equally ranked after GAMSAT / MCAT and MMI results.

Indigenous applicants will be selected on a case-by-case basis.

**Conditional offers**

If an offer is made where a degree or prerequisite units are not yet complete, the offer will be conditional. To be made a full offer, study must be complete by the 31 December in the year of application and a minimum GPA of 5.0 out of 7.0 must be maintained.

If conditions are not met by the specified date in the offer letter, the offer will be withdrawn. Applicants applying based on a combined degree must complete both awards to have their offer confirmed.

---

### International applicants

International applicants apply directly to Macquarie University.

Visit [mq.edu.au/study/medicine](http://mq.edu.au/study/medicine) for more information.

International applicants must meet the same minimum entry requirements as domestic applicants with three variations:

- MCAT scores as indicated below will be accepted as an alternative to GAMSAT scores (for international applicants residing outside of Australia)
- IELTS scores may be required, as per the ‘English language requirements’ section above
- Modified MMI

**MCAT**

International applicants residing outside of Australia can choose to submit Medical College Admissions Test (MCAT) scores or GAMSAT scores. International applicants residing in Australia at the time of application must submit GAMSAT scores.

MCAT scores will be used and weighted for selection for interview and offer in the same way that GAMSAT scores are used (see ‘Interview’ and ‘Offer’ sections above).

MCAT scores submitted must satisfy:

- A minimum total score of 500
- A minimum of 125 in each of the four sections
- Completion less than two years from intended enrolment

**IELTS**
| Open days and information session | Macquarie MD Information Evening: Tuesday 1 May 2018, 6.00pm  
Macquarie MD Webinar: Wednesday 5 May 2018, 5.30 – 7.30

### Melbourne MD Selection Policies

All applicants to Melbourne are asked to refer to the MD Selection Guidelines [http://mdhs-study.unimelb.edu.au/degrees/doctor-of-medicine/entry-requirements#entry-requirements](http://mdhs-study.unimelb.edu.au/degrees/doctor-of-medicine/entry-requirements#entry-requirements) for detailed selection policy information.

### Extended Rural Cohort (ERC) stream

Thirty (30 ERC places are allocated from the domestic quotas above; they are not additional places)

Students will be allocated to the ERC at the time of offer. The ERC program relates primarily to Year 3. ERC students will undertake a significant portion of their clinical education in hospitals and community-based practices within the Northern Victoria Regional Medical Education Network. This network brings together the clinical resources of Monash University and The University of Melbourne in northern Victoria.

**Preference will be given to applicants who express a particular interest in the program. However, any domestic applicant may be offered an ERC place.** Students offered a place as part of the Extended Rural Cohort will not be able to transfer into any other type of place. International students are not eligible for admission to the ERC stream.

### Clinical School Zone Allocation

The University of Melbourne has 7 clinical schools where MD students will spend the bulk of the clinical years of the course. These schools are grouped into three clinical school zones. All successful applicants will be allocated to a particular zone at the time of offer into the course. This allocation cannot be changed and appeals will not be considered. Clinical school zone allocation will be based on randomised order and applicant preference (with the exception of applicants who receive preferential entry on the basis of their rural background).

Applicants are advised to read through the Clinical School Zone and Clinical School Allocation policy for more information [https://medicine.unimelb.edu.au/study/current-student-resources/mms-students-resources/policies,-procedures-and-forms](https://medicine.unimelb.edu.au/study/current-student-resources/mms-students-resources/policies,-procedures-and-forms).

Further information about the individual clinical schools can be found here: [http://medicine.unimelb.edu.au/study/current-student-resources/md-students-resources/clinical-schools/clinical-schools-zones](http://medicine.unimelb.edu.au/study/current-student-resources/md-students-resources/clinical-schools/clinical-schools-zones).

### Bachelor Degree/ GPA/ GAMSAT

A minimum GPA of 5 and a minimum GAMSAT Score of 50 in each of the three sections of the GAMSAT is required. These are minimum requirements only, and selection into the course is highly competitive.

Applicants are ranked for interview based on the combined weighted GPA and the GAMSAT score (where each of the three sections is weighted equally). The GPA and GAMSAT score are weighted equally to create the ranked list for interview.
The Grade Point Average (GPA) is measured by considering the last 3 years of the applicant’s undergraduate coursework studies (only including Honours where the Honours Degree is completed by the end of semester one in the year of application, and the results are available for selection). GPA years will be weighted final-minus-2 x 1, the final-minus-1 x 2 and the final x 2.

If an Honours degree is not completed by mid-year in the year of application, then weightings will be applied by weighting the first of the final three pre-honours undergraduate years with weightings as outlined above.

An undergraduate degree is defined as a degree of at least three years duration when studied full-time, or equivalent, from a recognised university. However, accelerated entry and conversion degrees may be accepted, depending on the level and extent of credited study, at the discretion of the selection committee. GPAs may be adjusted in the applicant’s favour for applicants with a completed PhD or Masters qualification in a related discipline (quotas apply).

### Currency of qualification

Undergraduate degree must have been completed within 10 years of commencing the Doctor of Medicine. For applicants whose most recently completed undergraduate degree was completed 10 or more years before 1 January 2019 in the year of application, a Graduate Diploma, Master or PhD degree or equivalent must have been completed within the last 10 years.

Pre-requisites subjects must also have been completed within the 10 years prior to commencement of the Doctor of Medicine. For example, if applying for the 2019 intake then prerequisite subjects must have been completed from 2009 onwards.

### MCAT

Only international students who reside outside of Australia at the time of application may apply using an MCAT score.

### Indigenous Applicants

Recognised ATSI applicants are required to meet minimum selection criteria only. Indigenous Australian applicants are strongly encouraged to submit a GAM application to the University at the same time as their application for entry to the MD (see entry on page 12). Applicants eligible for the Indigenous Pathway will not be subject to ranking, and will be selected into the program if minimum requirements are met (i.e. Pre-requisite subjects passed; GPA of 5.0 or above; GAMSAT scores of 50 or above in each section; and Interview passed).

### Special entry schemes

#### Graduate Access Melbourne (GAM)

Applicants approved for the Graduate Access Melbourne scheme may be re-ranked based on their level of disadvantage. GAM applications must be submitted direct to the University of Melbourne by the closing date for applications. The online GAM application form can be accessed at [https://theuniversityofmelbourne.formstack.com/forms/2019_graduate_access_melbourne](https://theuniversityofmelbourne.formstack.com/forms/2019_graduate_access_melbourne)

To check your eligibility for Graduate Access Melbourne, please go to: [https://futurestudents.unimelb.edu.au/admissions/access_melbourne_and_equity_programs/graduate-access-melbourne](https://futurestudents.unimelb.edu.au/admissions/access_melbourne_and_equity_programs/graduate-access-melbourne)

**Guaranteed entry**

Applicants eligible for entry under the Guaranteed Entry scheme should refer to [http://mdhs-study.unimelb.edu.au/degrees/doctor-of-medicine/apply-now#apply-now](http://mdhs-study.unimelb.edu.au/degrees/doctor-of-medicine/apply-now#apply-now) for further information, and for details regarding the application process. Guaranteed entry applicants must submit an online application directly to the University of Melbourne in order to be eligible for offer. The application form can be accessed at [https://theuniversityofmelbourne.formstack.com/forms/2019_guaranteed_entry](https://theuniversityofmelbourne.formstack.com/forms/2019_guaranteed_entry)

**Important note:**
• All subject pre-requisites must be met on the first attempt (for students who commenced their undergraduate degree after the 2016 intake), and all guaranteed entry applicants will be interviewed. To check your eligibility for the Guaranteed Entry Scheme, please go to http://futurestudents.unimelb.edu.au/admissions/high_achievers_programs/graduate-course-guarantees

• Full-fee guaranteed entry applicant must also meet minimum Weighted Average Mark requirements.

• Full-Fee Guaranteed entry applicants who wish to be considered for other fee type places, must apply via the standard GEMSAS process. These applications will be considered separately.

Rural entry

The Melbourne Medical School at The University of Melbourne recognises the importance of building and sustaining a rural medical workforce and will therefore offer priority access to at least 27% of Commonwealth Supported places in the Melbourne MD to applicants from a rural background, subject to the standard selection policies.

For further information on rurality classification please refer to page 19 of this guide.

Interview

Multi Mini Interviews (MMI): The interview component will be an 8 station Multiple Mini Interview. Each station takes 5 minutes and has a single interviewer.

The MMI aims to assess non-academic qualities including cultural sensitivity, maturity, collaboration, reliability and communication skills.

The stations could include practical tasks, commenting on short films, or explaining your thinking.

Further important information on how the MMI is applied to guaranteed entry and GEMSAS applications can be found here: http://mdhs-study.unimelb.edu.au/degrees/doctor-of-medicine/entry-requirements#entry-requirements

Offers

Course offers will be made on the basis of a combined ranked list where ranks by GAMSAT will be weighted by 25%, GPA by 25% and interview by 50%. Eligible Guaranteed Entry and ATSI applications will not be subject to ranking. Eligible rural background applicants may be selected above higher-ranked applicants, in order to satisfy the rural-background quota.

If an offer is made where a degree or pre-requisite subjects are not yet complete, the offer will be conditional. When final results are received the final GPA will be calculated. Applicants will be expected to maintain or exceed the GPA used when shortlisted for interview. An applicant whose final GPA drops, but only by 0.3 or less will, in most cases, have their offer confirmed. If conditions aren’t met by the specified date on the offer letter the offer will be withdrawn.

Applicants enrolled in a combined degree who receive a conditional offer for a place at The University of Melbourne based on that combined degree, must complete both awards in order to have their offer confirmed.

For further information, refer to MD Selection Guidelines for more details: https://mdhs-study.unimelb.edu.au/degrees/doctor-of-medicine/apply-now#apply-now

Conditional Offers

If the subjects you have studied are not included in the published lists, please review the instructions on how to have your subjects assessed at the prerequisite website. Applicants who submit complete documentation by Friday 4 May 2018 will be advised of the subject

Pre-requisite

subjects and equivalents

The three pre-requisite subjects are anatomy, physiology and biochemistry successfully undertaken at 2nd year level.

A table of approved pre-requisite equivalent subjects can be found at: http://mdhs-study.unimelb.edu.au/prerequisites

If the subjects you have studied are not included in the published lists, please review the instructions on how to have your subjects assessed at the prerequisite website. Applicants who submit complete documentation by Friday 4 May 2018 will be advised of the subject
equivalence before the closing date for applications. Submissions received after this date will take three weeks to be processed.

Applicants who have not submitted documentation for assessment by the end of May OR have not demonstrated equivalence as part of their GEMSAS application (e.g. evidence of relevant completed subjects) will be deemed to have failed the pre-requisite requirements and will not be eligible for selection into the MD.

If you are going to enrol in one or more subjects from the list of approved prerequisites subjects in semester two in the year of application, you are still eligible to list University of Melbourne as one of your preferences. However, you must enrol in your prerequisites subjects by the end of July in the year of application, and you must list the subjects you intend to enrol in, when you complete the Education section of the GEMSAS online Application Form. GEMSAS will be able to retrieve your enrolment records through Automated Results Transfer System (if your institutions use ARTS) at that time but can only do so, if you have listed them in the application or advised GEMSAS at info@gemsas.edu.au by 31 July.

Applicants enrolling in pre-requisite subjects in 2018 must have results available by Sunday 6 January 2019. Applicants should confirm with their enrolling institution that results will be available by this date. If results will not be available, applicants should apply for the 2020 intake of the MD.

Prerequisite subjects must have been completed within 10 years prior to commencement of the Doctor of Medicine.

### Selection Criteria

### Core Participation Requirements

All applicants must familiarise themselves with the Doctor of Medicine Core Participation Requirements before applying to enter the MD at Melbourne, which can be found on the following website: [http://medicine.unimelb.edu.au/study/current-student-resources/mms-students-resources/policies,-procedures-and-forms](http://medicine.unimelb.edu.au/study/current-student-resources/mms-students-resources/policies,-procedures-and-forms) This document outlines the aptitude required to achieve the necessary attributes to progress through the course.

All successful applicants will be asked to acknowledge that they have read and understood the Core Participation Requirements of the MD before commencing in the course.

### International students

International students may apply with either a score from GAMSAT or MCAT. International applicants with an MCAT cannot be considered if they are residing in Australia at the time of application (these applicants must apply with GAMSAT).

Applicants who use the MCAT, must achieve a minimum score of at least 492 in order to be considered eligible for entry.

Applicants who have undertaken their undergraduate studies in a language other than English should consult the website: [http://futurestudents.unimelb.edu.au/admissions/entry-requirements/language-requirements](http://futurestudents.unimelb.edu.au/admissions/entry-requirements/language-requirements) for information about minimum English language requirements.

### English Language Proficiency

Domestic applicants who have completed their undergraduate studies in English within the last 2 years are deemed to have met the English Language Requirements.

Applicants who have not completed undergraduate studies in English within the past 2 years can satisfy the English Language Requirements in a number of ways, as outlined on the website and
| **Open Days and Information Sessions** | University Open Day: Sunday 19 August 2018  
For further updates and details of Information Sessions refer to  
The information detailed below only applies to The University of Notre Dame Australia, Fremantle. Applicants to The University of Notre Dame Australia, Sydney, must read the separate section contained in this Guide.

The Objects of The University of Notre Dame Australia are:

a. The provision of university education, within a context of Catholic faith and values; and
b. The provision of an excellent standard of:
   i. teaching, scholarship and research;
   ii. training for the professions; and
   iii. pastoral care for its students.

</tr>
<tr>
<td>BMP</td>
<td>29</td>
</tr>
<tr>
<td>Full-fee</td>
<td>Up to 10</td>
</tr>
</tbody>
</table>

Applicants must specify which fee-type places they are applying for. Applicants will not be considered for places they have not selected. Offers will be made in the following order: CSP first, BMP second and Full-Fee third.

Change of Fee-Type Preferences

No fee-type changes whatsoever will be allowed for Commonwealth Support (bonded or non-bonded) places.

The only request for a change of fee-type that may be considered is a request to add or remove the ‘Full-Fee’ category. This may be requested where your circumstances or preferences change. However, applicants must note that ONLY one change per application per year is permissible. Subsequent change requests will not be considered. All changes must be submitted by email no later than 4pm (AEST) on 5 October 2018. Requests received after this date/time will not be considered.

**To submit a change of fee-type preference** for Notre Dame Fremantle, please email Fremantle Admissions at fremantle.admissions@nd.edu.au. All changes, if approved, will be confirmed by the University via email.

No Transfer of Offer between Notre Dame’s Fremantle and Sydney campuses.

Prior to submission of university preferences, each applicant must give careful consideration to the Notre Dame Campus to which they are applying.

Under no circumstances will any offer of a place to a new commencing student be transferable between Notre Dame’s Fremantle and Sydney campuses.

Selection Process

Candidates are selected for admission on the basis of the following criteria:

- Notre Dame Portfolio: Personal qualities, motivation to study medicine and to study at Notre Dame Fremantle;
- GAMSAT Overall Score: Applicants are expected to achieve an overall GAMSAT score of at least 50;
- Grade Point Average (GPA): Applicants are expected to achieve an overall GPA score of at least 5.0; and
- Interview (Multi Mini/Structured Interview).
Qualifying Bachelor Degree

Applicants must have completed, or be in the final year of a minimum three year full-time equivalent (FTE) undergraduate degree (including an Honours year if applicable.) The following degrees may also be used as qualifying degrees, subject to the conditions stated:

**Vertical Double/ Combined Degrees**

An undergraduate/postgraduate combined degree consisting of at least a two year undergraduate plus one year postgraduate degree must be completed by 31 December 2018. Completion of only the undergraduate component of the overall combined undergraduate/postgraduate degree will be deemed insufficient, unless the applicant has been approved by the conferring institution to exit the qualification early with at least a 3-year FTE Degree. Where a undergraduate/postgraduate degree has been used as the qualifying undergraduate degree, and it is the most recent study undertaken, all available units will be used in calculating the GPA.

**Accelerated degrees**

An accelerated degree consists of three trimesters per year completed in two years. Applicants in their final year of an accelerated degree must be due to complete their degree by 31 December 2018. Where an accelerated degree is later completed as a standard duration undergraduate degree, the most recent three years of study will be used in the GPA calculation.

**The following degrees cannot be used as qualifying degrees**

Conversion degrees will not be used in the GPA calculation and cannot be used as a qualifying degree.

**Applicants in the final year of study of qualifying degree**

Applicants who apply using their current enrolled minimum 3-year full-time equivalent (FTE) undergraduate degree will be expected to successfully complete all requirements of the degree as at 31 December 2018. Where deferred or supplementary exams are scheduled after 31 December 2018, the applicant will be deemed not to have successfully completed all requirements of the degree as at 31 December 2018. As such, applicants must note the stipulated deadlines carefully if and when requesting deferred or supplementary exams. Where an applicant is in the final year of study, the final-year GPA will be calculated based on the completed units within their final year. For example, if 0.25FTE units have been completed and the applicant is expected to complete 0.75FTE that year in order to complete their degree, their final year GPA will be calculated using 0.25FTE of units. Offers to successful candidates completing their degree in 2018 will be conditional upon maintenance of a competitive GPA and documentary evidence of degree completion prior to 31 December 2018.

GPA Calculation

An applicant's GPA will, subject to the exclusions below, be calculated on the most recent 3-FTE years of study of completed/ completing degrees at an AQF level 7 or above. All grades/results (including fail grades, if applicable) from the most recent 3-FTE years of completed/ completing study will be used.

Results used for the GPA calculation must contribute towards the degree, i.e. units completed that are not part of the awarding degree, will not be used for GPA calculations.

GPAs will be calculated using study at Bachelor, Honours (excluding professional honours), Graduate Diploma, and Masters by coursework only. Graduate Diploma and Masters by coursework qualifications must be completed by 31 July 2018 to be used in the GPA calculation.
Graduate Certificate, Masters by research, Doctoral Degrees, professional honours and study below bachelor AQF level 7 will not be considered for the purpose of GPA calculation.

Qualifications must be completed at a TEQSA accredited institution (or for equivalent international qualifications, defined by the Australian Department of Education and Training Qualifications Recognition Policy Unit (previously AEI-NOOSR)).

For a Bachelor and Honours degrees, GPA years will be progressively weighted Final-minus-2 x 1, Final-minus-1 x 2 and Final x 3, to give greatest weight to the most recent results.

For Graduate Diploma and Masters by Coursework study, GPA calculations will not be weighted.

For more information regarding GPA calculations and this terminology please refer to the GPA Guides on the GEMSAS Website: [http://www.gemsas.edu.au/gpa-calculations](http://www.gemsas.edu.au/gpa-calculations/)

Recognition will be given to higher degrees of Masters by research or Doctoral Degrees completed by 31 July 2018 through the scoring on the Notre Dame Portfolio. These qualifications will not be used for the purposes of GPA calculations.

Aboriginal and Torres Strait Islander Applicants

Aboriginal and Torres Strait Islander applicants can apply through GEMSAS or may contact The Notre Dame Fremantle Admissions Office on 08 9433 0537 for advice on alternative pathways. Information on the Aboriginal Entry Pathway can be found at: [http://www.nd.edu.au/indigenous-portal/alternative-entry-to-medicine](http://www.nd.edu.au/indigenous-portal/alternative-entry-to-medicine).

Rural Applicants

The equivalent of at least 28% of the University’s Commonwealth-supported medical student allocation must be of rural background as defined by the Rural Health Multidisciplinary Training (RHMT) Programme.

If you come from a rural background (ASGC-RA 2 to 5 area) and wish this to be taken into account in your application, you will need to provide documentary evidence to GEMSAS and meet the eligibility requirements as defined by the RHMT Programme. Eligibility requirements are detailed by GEMSAS in this publication.

If you are able to demonstrate that you are from a rural background, your Notre Dame Portfolio score may be adjusted by the provision of additional points in recognition.

Special Entry/Pathway Schemes

Applicants are strongly advised to regularly check the Notre Dame website [www.nd.edu.au/FreoMD](http://www.nd.edu.au/FreoMD) for details on additional Special Entry/Pathway Schemes (SEP Schemes) which may be available for 2019 entry.

Interview

Applicants are ranked by combining the standardised scores calculated from a combination of the GPA, GAMSAT and Notre Dame Portfolio

Approximately 190* applicants will be interviewed. Interview offers will be made in September 2018. Interviews will be held in Fremantle in September/October 2018.

*Subject to change.

The University of Notre Dame Australia reserves the right to offer additional interviews to applicants from alternative pathways.

Offers

Applicants who have been interviewed are ranked by combining the standardised scores calculated from a combination of the GPA, GAMSAT and Notre Dame Portfolio with the applicant’s interview score

Offers for both interview and course places are made via email to the email address provided by the applicant in his or her application.

If no acceptance is received from an applicant within the stipulated timeframe, the offer will no longer be valid.

Offers to successful candidates completing their degrees in 2018 will be conditional upon maintenance of a competitive GPA. Offers will be conditional until evidence is received that the applicant has achieved the required GPA as stated in the offer letter. Applicants who are conditionally-offered are encouraged to approach their conferring institutions to ensure that their completion will be confirmed by 31 December 2018.

Under no circumstances will offers to study the Doctor of Medicine at Notre Dame, Fremantle be deferred or transferred.

International Students

Places for international students in 2019 are not offered through the GEMSAS application process.

Open days and Medicine Information Session

Fee-type and Quotas

Applicants must specify which fee-type places they are applying for. Applicants will not be considered for places they have not selected. Offers will be made in the following order: CSP first, BMP second and Full-Fee third.

Change of Fee-Type Preferences

No fee-type changes whatsoever will be allowed for Commonwealth Support (bonded or non-bonded) places.

The only request for a change of fee-type that may be considered is a request to add or remove the ‘Full-Fee’ category. This may be requested where your circumstances or preferences change. However, applicants must note that ONLY one change per application per year is permissible. Subsequent change requests will not be considered. All changes must be submitted by email no later than 4pm (AEST) on 5 October 2018. Requests received after this date/time will not be considered.

To submit a change of fee-type preference for Notre Dame Sydney, please email Sydney Admissions at sydney.admissions@nd.edu.au. All changes, if approved, will be confirmed by the University via email.

No Transfer of Offer between Notre Dame’s Fremantle and Sydney campuses.

Prior to submission of university preferences, each applicant must give careful consideration to the Notre Dame Campus to which they are applying.

Under no circumstances will any offer of a place to a new commencing student be transferable between Notre Dame’s Sydney and Fremantle campuses.

Selection Process

Candidates are selected for admission on the basis of the following criteria:

- Notre Dame Portfolio: Personal qualities, motivation to study medicine and to study at Notre Dame Sydney;
- GAMSAT Overall Score: Applicants are expected to achieve an overall GAMSAT score of at least 50;
- Grade Point Average (GPA): Applicants are expected to achieve an overall GPA score of at least 5.0; and
- Interview (Multi Mini/Structured Interview).
Qualifying Bachelor Degree

Applicants must have completed, or be in the final year of a minimum three year full-time equivalent (FTE) undergraduate degree (including an Honours year if applicable.)

The following degrees may also be used as qualifying degrees, subject to the conditions stated:

**Vertical Double/Combined Degrees**

An undergraduate/postgraduate combined degree consisting of at least a two year undergraduate plus one year postgraduate degree must be completed by 31 December 2018. Completion of only the undergraduate component of the overall combined undergraduate/postgraduate degree will be deemed insufficient, unless the applicant has been approved by the conferring institution to exit the qualification early with at least a 3-year FTE Degree. Where an undergraduate/postgraduate degree has been used as the qualifying undergraduate degree, and it is the most recent study undertaken, all available units will be used in calculating the GPA.

**Accelerated degrees**

An accelerated degree consists of three trimesters per year completed in two years. Applicants in their final year of an accelerated degree must be due to complete their degree by 31 December 2018. Where an accelerated degree is later completed as a standard duration undergraduate degree, the most recent three years of study will be used in the GPA calculation.

**The following degrees cannot be used as qualifying degrees**

Conversion degrees will not be used in the GPA calculation and cannot be used as a qualifying degree.

**Applicants in the final year of study of qualifying degree**

Applicants who apply using their current enrolled minimum 3-year full-time equivalent (FTE) undergraduate degree will be expected to successfully complete all requirements of the degree as at 31 December 2018. Where deferred or supplementary exams are scheduled after 31 December 2018, the applicant will be deemed not to have successfully completed all requirements of the degree as at 31 December 2018. As such, applicants must note the stipulated deadlines carefully if and when requesting deferred or supplementary exams. Where an applicant is in the final year of study, the final-year GPA will be calculated based on the completed units within the final year. For example, if 0.25FTE units have been completed and the applicant is expected to complete 0.75FTE that year in order to complete their degree, their final year GPA will be calculated using 0.25FTE of units. Offers to successful candidates completing their degree in 2018 will be conditional upon maintenance of a competitive GPA and documentary evidence of degree completion prior to 31 December 2018.

GPA Calculation

An applicant’s GPA will, subject to the exclusions below, be calculated on the most recent 3-FTE years of study of completed/completing degrees at an AQF level 7 or above. All grades/results (including fail grades, if applicable) from the most recent 3-FTE years of completed/completing study will be used.

Results used for the GPA calculation must contribute towards the degree, i.e. units completed that are not part of the awarding degree, will not be used for GPA calculations.

GPAs will be calculated using study at Bachelor, Honours (excluding professional honours), Graduate Diploma, and Masters by coursework only. Graduate Diploma and Masters by coursework qualifications must be completed by 31 July 2018 to be used in the GPA calculation.

Graduate Certificate, Masters by research, Doctoral Degrees, professional honours and study below bachelor AQF level 7 will not be considered for the purpose of GPA calculation.
Qualifications must be completed at a TEQSA-accredited institution (or for equivalent international qualifications, defined by the Australian Department of Education and Training Qualifications Recognition Policy Unit (previously AEI-NOOSR).

For a Bachelor and Honours degrees, GPA years will be progressively weighted Final-minus-2 x 1, Final-minus-1 x 2 and Final x 3, to give greatest weight to the most recent results.

For Graduate Diploma and Masters by Coursework study, GPA calculations will not be weighted.

For more information regarding GPA calculations and this terminology please refer to the GPA Guides on the GEMSAS Website: [http://www.gemsas.edu.au/gpa-calculations/](http://www.gemsas.edu.au/gpa-calculations/)

Recognition will be given to higher degrees of Masters by research or Doctoral Degrees completed by 31 July 2018 through the scoring on the Notre Dame Portfolio. These qualifications will not be used for the purposes of GPA calculations.

| Application Process | All applicants (including CSP, BMP and Full-Fee-paying) must complete the online GEMSAS Application inclusive of the embedded Notre Dame Portfolio.

The Notre Dame Portfolio must be completed irrespective of the ranking of Notre Dame Sydney in the GEMSAS application. Applicants who fail to submit a Notre Dame Portfolio will not be considered for a place.

As part of the Notre Dame Portfolio, applicants MUST complete the Personal Statement section (on-line). In this, applicants will be asked to outline their motivation for pursuing a career in Medicine and for studying at Notre Dame, including their understanding of and respect for the Objects of the University. Applicants who fail to submit a Personal Statement as part of the Notre Dame Portfolio will not be considered for a place.

The Notre Dame Portfolio may take time to complete and it is recommended that applicants commence preparation early and submit well before the closing date.

A Notre Dame Portfolio template and guide will be available from the Notre Dame website from 30 April 2018 at [www.nd.edu.au/SydMD](http://www.nd.edu.au/SydMD) and applicants are strongly encouraged to consider this template and guide when completing the Notre Dame Portfolio.

It is the responsibility of the applicant to review their application BEFORE submission. STRICTLY no changes can be made once submitted, with the exception of updating verification contact information. Verification contact detail changes should only be requested if the verifier has updated contact details or is no longer able to verify experience due to unforeseen circumstances outside of the applicant’s control. All verification contact details should be finalised before the submission of your portfolio.

To update verification contact details please contact the Notre Dame Sydney Admissions Office at [sydney.admissions@nd.edu.au](mailto:sydney.admissions@nd.edu.au). The final date for changing verification contact details is Friday 31 August 2018. |

| Higher Degrees (Doctoral Degrees & Masters) | Doctoral Degrees or Masters by research completed by 31 July 2018 will be recognised through the scoring on the Notre Dame Portfolio.

For the purpose of portfolio scoring, combined undergraduate/postgraduate degrees will not be awarded recognition. |

<p>| Aboriginal and Torres Strait Islander Applicants | Aboriginal and Torres Strait Islander applicants can apply through GEMSAS or may seek advice on alternative pathways by contacting the Notre Dame School of Medicine, Sydney, Aboriginal and Torres Strait Islander Health Unit. ### Bachelor Degree/GPA

Applicants must have achieved a minimum converted GPA of 5.0/7.0 in their most recently completed key degree. The GPA is not currently used to rank UQ applicants, but is used as a tiebreaker when necessary (see also ‘Offers’ section).

The first key degree must be a Bachelor level program which has a minimum standard duration of six semesters of full time study. Bachelor degrees which have a standard duration of less than six semesters of full time study will not be considered in UQ’s assessment process. Postgraduate degrees can only be accepted as a ‘subsequent’ key degree after an applicant has previously completed a Bachelor degree of the required minimum standard duration.

Where an applicant has completed an approved Honours award, Graduate Diploma, Postgraduate Diploma, Masters or Doctoral degree after completion of an acceptable first Bachelor degree, the most recent of these programs will be used as the basis of the GPA assessment. Graduate certificate programs are not classified as key degrees and grades from these programs will only be included in the GPA assessment when they have contributed credit towards a higher level postgraduate program.

The GPA for the UQ preference is calculated over the entire duration of the degree. This means that grades are not divided into years for a ‘count back’ assessment of the GPA. As a result, UQ’s GPA assessments are weighted by credit value of the subjects rather than the year in which the subjects were completed.

All subjects studied while enrolled in the key degree program are included in the GPA calculation, whether or not they counted towards the award of the degree. Any other study for which credit was given towards the degree must also be included, this includes failed attempts at subjects in earlier programs that were repeated and passed to attain credit.

Where the degree was completed as part of a combined, dual or parallel degree program, all subjects studied towards both degrees are included in the calculation of the GPA. This includes dual bachelor/master programs that had an integrated delivery of content.

Letter grades are used in all GPA calculations by The University of Queensland. Percentages are only used when letter grades are unavailable.

Completed Doctor of Philosophy (PhD) and Master of Philosophy (MPhil) programs are allocated a deemed GPA of 7.0. Honours (by research) receive a GPA as per the Honours category in the conversion table on page 81. To classify as a research based program, a program must contain a research component that comprises at least 67% of the overall content.
The GPA for Bachelor degrees with embedded or ‘on-course’ Honours (typically 4 or 5 year degrees) may be calculated using whichever method gives the highest result. That is, either GPA calculation based on the coursework, or from the Honours category.

Qualifying programs are often incomplete at the time of offers. Applicants are advised not to include a UQ preference if their qualifying program cannot be completed in full with a minimum GPA of 5.0/7.0 before 31 December 2018.

<table>
<thead>
<tr>
<th>Current study assessments</th>
</tr>
</thead>
<tbody>
<tr>
<td>QUT only consider a current study assessment where all of the following conditions apply:</td>
</tr>
<tr>
<td>1. The applicant is currently completing their first key degree, or they don’t already have a GPA of 5.0 or better in their most recently completed key degree, and</td>
</tr>
<tr>
<td>2. Some finalised grades are available for the current key degree program, and</td>
</tr>
<tr>
<td>3. The progressive GPA of the current study is above 5.0, and</td>
</tr>
<tr>
<td>4. It is possible for the applicant to complete the current key degree before 31 December in the year of application.</td>
</tr>
<tr>
<td>If one or more of these conditions are not met, a current study assessment will not be considered by UQ unless the current study is being undertaken by research. In this scenario, a GPA of 5.0 will be nominally awarded to keep the applicant active in the selection pool.</td>
</tr>
<tr>
<td>Any offer made based on a current study assessment will require completion of the qualifying key degree prior to 31 December in the year of application with the required minimum overall GPA of 5.0. If either the completion requirement or the GPA requirement are not met, the conditional offer will be rescinded and the applicant’s place in the program will be cancelled.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Currency of qualification</th>
</tr>
</thead>
<tbody>
<tr>
<td>Applicants whose key degree was completed more than 10 years prior to commencement in the MD may be considered if they have successfully completed the equivalent of at least one full semester (i.e. 0.50 FTE) of postgraduate coursework study in the recent 10 year period. The reactivation study must be graded and it must be completed at Graduate Certificate, Graduate Diploma, Postgraduate Diploma or coursework Master level.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>GAMSAT</th>
</tr>
</thead>
<tbody>
<tr>
<td>Applicants must achieve a minimum score of 50 in each section. Applicants with any section score below 50 are deemed ineligible.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Aboriginal and Torres Strait Islander (ATSI) Applicants</th>
</tr>
</thead>
<tbody>
<tr>
<td>Applicants who are from an ATSI background are required to submit their application directly to UQ’s Aboriginal and Torres Strait Islander Studies (ATSIS) Unit for consideration under a separate selection process which involves short listing and interview. Short listed applicants must be able to provide documented proof of their ATSI status at their interview. Please contact the ATSIS Unit (<a href="mailto:atsis@uq.edu.au">atsis@uq.edu.au</a>) for more information.</td>
</tr>
<tr>
<td>The GAMSAT exam is not compulsory for ATSI applicants at UQ. However, it is recommended that ATSI applicants who choose to undertake the GAMSAT exam should also apply through GEMSAS and include UQ in their preference list, in addition to undertaking the alternative process which is administered by the ATSIS Unit. ATSI background applicants who choose not to sit the GAMSAT exam should not apply through GEMSAS.</td>
</tr>
<tr>
<td>It is important to note that if an ATSI background student applies directly to UQ and also chooses to lodge a separate GEMSAS application but doesn’t include UQ in their preference list, the applicant’s GEMSAS preference order will be respected and UQ will be considered to be their last preference (e.g. preference number 7, if all 6 GEMSAS preferences have been used).</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Rural entry</th>
</tr>
</thead>
<tbody>
<tr>
<td>In accordance with Government legislation, The University of Queensland will offer 28% of places to students from a rural background.</td>
</tr>
</tbody>
</table>
| Students will be eligible for consideration in the Rural Background Students (RBS) sub quota if they have spent at least 5 years continuously, or 10 years cumulatively, living in a rural Australian area as determined by the ASGC-RA (Australian Standard Geographical Classification -
| Interview | UQ does not currently interview applicants for graduate entry Medicine. The only exception is for ATSI background applicants (see above for information). |
|Clinical Units | Students in year 1 of Phase 1 (year 1 and 2) spend 4 hours per week in their clinical unit, the remainder of the time will be at the St Lucia campus. All students commencing Year 1 of the MD program will be able to self-select one of three clinical units through UQ’s student system in the weeks before classes commence on a ‘first in’ basis. Details of this process will be provided on the Medical Program website. Students in year 2 will spend the majority of their time at their clinical unit. Please note, your clinical unit may change from year 1 to year 2. Each of the three Phase 1 clinical units are accessible through two bus services (Routes 66 and 332) which run every 5 minutes from the St Lucia campus during semester periods. During Phase 2 (years 3 & 4), there are 15 clinical sites to choose from (subjects to quotas). The majority are located in Brisbane and its surrounding cities with four located in rural Queensland. The full list of clinical sites is available at this site: https://medicine.uq.edu.au/clinical-schools |
|Offers | UQ’s first offer round is released in August/September of each year. Applicants will be ranked in order of merit by their GAMSAT Overall Score, and offers will be made accordingly. Applicants within the same GAMSAT Overall Score band will be differentiated by the GPA from the most recently completed key degree. The lowest entry scores are normally derived from the first round of offers. Applicants are advised that the required entry scores for subsequent offer rounds are often higher than those of the first round of offers. Quotas are filled in the order of non-bonded CSP, then bonded CSP (known as BMP). Rural Background (RBS) places will be filled from both bonded and non-bonded places. Offers made to applicants in the final year of their qualifying key degree will be conditional upon the completion of their current degree before 31 December in the year of application with a GPA of 5.0 or better. |
|Other Recommendations & Requirements | Recommendations for all applicants:  
- For the MD Training graduate program, undergraduate university studies in science, biomedical science or health sciences with time spent studying social sciences and humanities may be helpful.  
- Useful university courses are: Anatomy, Physiology and Biochemistry.  
- For more information visit medicine.uq.edu.au/pathways-medicine.  
Program requirements for commencement:  
- Completed a schedule of immunisations;  
- Obtained a current Apply First Aid (including CPR) certificate;  
- Provided evidence of status with respect to specific blood-borne viruses;  
- Applied for a Working with Children (‘Blue Card’) clearance (during Orientation week); and  
- Criminal History Check approved by the faculty |
Further information is available at this site:
https://medicine-program.uq.edu.au/current-students/annual-program-requirements-year-1

**Deferrals**

If you are successful in gaining an offer to study at UQ and you have experienced an unexpected life event (after lodging your application) that will delay your commencement of study, please contact UQ Admissions to discuss your options. If you expect to be requesting deferment prior to lodging your GEMSAS application, it is highly recommended that you consider applying for a future intake instead.

**English Proficiency**

An applicant from a non-English speaking background (NESB) must satisfy the English Language Proficiency (ELP) requirements in order to be considered for a place. The ELP requirements of domestic NESB students are the same as those for international NESB applicants and they can be found at the following link:
http://www.uq.edu.au/international-students/english-language-requirements

**International Students**

International applicants must apply directly to UQ International Admissions section and not through GEMSAS. The international application form is located on the UQ website (www.uq.edu.au).

To be considered for the UQ-Ochsner cohort, applicants must be US citizens or US permanent residents.

Dual Australia/USA citizens are classified domestic students and they are not eligible for international full fee places – including the UQ-Ochsner places.

Eligibility for international places is based on the same criteria as for domestic applicants, but UQ-Ochsner applicants need to successfully undergo an interview at the Ochsner Clinical School in Louisiana, USA. UQ-Ochsner applicants who are not offered a place after their interviews are not admitted through the International pathway in the same year of intake.

All international/UQ-Ochsner applicants may apply to UQ International Admissions after sitting either the GAMSAT or the MCAT exams. International MD applications can be lodged anytime. Offers will start being released from late-April.

At the time of printing, applicants who have sat the MCAT exam must have achieved minimum overall score of 504 to be eligible for offer. The previous version of MCAT is no longer accepted. GAMSAT score requirements vary between intakes. The 2018 intake’s GAMSAT requirements are a minimum of 50 in each of the 3 section. Please contact UQ International through study@uq.edu.au for the latest advice on this topic.

**Open Days and Information Sessions**

St Lucia campus
Sunday 5 August 2018
9am – 3pm

**Changes/Updates**

UQ’s MD admission rules are currently under review, with changes expected to take effect progressively between the 2020 and 2021 intakes (there will be no changes for the 2019 intake). Applicants for intakes beyond the 2019 intake are strongly advised to regularly revisit the University of Queensland website for updates/changes to any of the information on this form.
## Course Type

UWA offers a 4-year Doctor of Medicine (MD) course.

### Places Available in 2019

<table>
<thead>
<tr>
<th>CSP</th>
<th>see above</th>
</tr>
</thead>
<tbody>
<tr>
<td>BMP</td>
<td>see above</td>
</tr>
<tr>
<td>International</td>
<td>Approximately 15 places</td>
</tr>
</tbody>
</table>

Up to 55 Places, of which:
- approximately 28% of places are available for rural applicants;
- up to 10% of places are available for Indigenous students.
- 28.5% of all domestic medical places are BMPs; however because there are no School Leaver entry BMPs for non-rural, non-Broadway applicants, the Standard Pathway will have more than 28.5% BMPs.

Further information on quotas can be found on our [website](#).

### Bachelor Degree/ GPA

In order to be eligible for entry, applicants must have completed a recognised* bachelor degree, or will complete a recognised* bachelor degree by the end of the application year.

**Applicants who only hold higher degrees**

As all applicants require a recognised* bachelor degree for entry to the UWA MD course, applicants who have completed a higher degree but have not completed a recognised* bachelor degree will not be eligible for consideration.

**GPA**

Domestic applicants who were successful in obtaining an interview for 2018 entry averaged GPA of 6.73.

**Study included in the GPA calculation:**

Applicants must have achieved a GPA of at least 5.5 at time of interview selection. The GPA is calculated on the most recent three full-time-equivalent years (FTE) of study (e.g. 3 FTE is 144 credit points at UWA). Please note this excludes any exemptions, credit or advanced standing. The Faculty includes Bachelor, Honours (only if already completed or if it will be completed by end of semester one, 2018), Graduate Certificate, Graduate Diploma, and Masters by coursework level of study in the GPA calculation if undertaken in the most recent three years FTE. Additional study (other than honours) does not need to be completed. Applicants who have undertaken additional study (whether postgraduate or additional undergraduate study) should indicate this on the GEMSAS application.

**Unweighted GPA:**

The GPA for UWA is not weighted. To calculate an unweighted GPA you simply need to add the three GPA years (final GPA year, final GPA year-1 and final GPA year-2) together and divide by three. If you only have two years of results at the time you calculate your GPA you would add the two GPA years together and divide by 2.

**Further GPA Complications:**

Please see our website for information on how we deal with the following complications to a GPA calculation:
• Ungraded Passes (and Fails)
• Exchange Studies
• Credit/Exemptions/Advanced Standing
• Not-for-degree/Open University studies.
• Repeating Units

Minimal results in the current year of study:
Where an applicant has 0.25 FTE (or less) of results for their final GPA year at the end of semester 1, 2018, the Faculty will include older study, where available. Where no older study is available, the Faculty will calculate the GPA on only the “GPA Final-1” and “GPA Final-2” years. In this instance, if an applicant is made an offer, it will be conditional upon their performance in all units in 2018 (see section below about conditional offers).

Applicants with completed PhDs:
Applicants who have completed a PhD (from a recognised Institution) by the time of application will be awarded/deemed a GPA of 7.0.

Applicants with completed Masters by Research:
Completed Masters by research qualifications are not included in the GPA calculation. Instead the Faculty will add a small bonus of 0.2 to the overall GPA for applicants who have completed this qualification at time of application.

Degree Completion and semester two, 2018 results- Conditional Offers:
Applicants who are eligible for a course offer but are studying (at any level including postgraduate level) in semester two, 2018 will be made a conditional offer requiring them to maintain a minimum GPA of 5.5. Applicants who have not yet completed their initial bachelor degree will also be required to complete their bachelor degree by the end of 2018 as part of their offer conditions.

Please note that if you are completing your initial bachelor degree and undertake a course of action that will result in you receiving late results, you may not meet offer conditions by the required deadline, i.e. the end of December, 2018 which will result in your offer being withdrawn. Therefore take care when undertaking any course of action in semester 2, 2018 that could delay your results or degree completion. This may include undertaking deferred/supplementary exams, undertaking units that fall outside normal semesters (e.g. summer units or trimester units) or going on exchange. If you anticipate any problems, please contact the Faculty as soon as possible to determine whether your offer will be withdrawn.

Accelerated degrees and conversion courses:
UWA will accept 2-year bachelor degrees and 1-year conversion degrees for the purposes of admission to our medical course. However, applicants undertaking a 1-year conversion degree who have not completed a previous bachelor degree must complete that course before applying for entry to UWA (i.e. applicants cannot apply during the conversion course).

---

*The completed undergraduate degree must be from an Australian university or a Higher Education Institution recognised by the Australian Qualifications Framework, or a recognised Bachelor qualification listed in the National Office of Overseas Skills Recognition (NOOSR) Guide.

</table>

**Doctor of Dental Medicine (DMD), Doctor of Podiatric Medicine (DPM) & Master of Pharmacy**

UWA admitted its first applicants into the 4-year DMD and 3-year DPM courses in 2013.
Selection for the DMD is based on suitable GAMSAT (or MCAT for international applicants), a minimum GPA of 5.5 and interview. Shortlisted applicants to the DMD will also be required to sit a spatial awareness test at time of interview.

Selection for the DPM is based on suitable GAMSAT (or MCAT for international applicants) and a minimum GPA of 5.0 (there is no interview). An alternate pathway is available for students who have not undertaken GAMSAT (or MCAT if an international student) but who have successfully completed certain pre-requisite subjects.

Selection for the MPharm is based on a minimum GPA of 5.0 and interview. Applicants will also need to complete certain pre-requisite subjects.

Please see our website for further admission information and quotas. Applications will be handled directly by the Faculty and applicants should visit: http://www.meddent.uwa.edu.au/courses/postgraduate/apply-professional/domestic-std-path for information on how to apply. Applications for the DMD and MPharm will close on 31 May 2018 for both international and domestic applicants. Applications for the DPM will close on 30 September 2018 for both domestic and international applicants.
The UOW Doctor of Medicine (MD) program aims to produce excellent medical practitioners who have the capacity and desire to contribute to the enhancement of health care for patients in all geographic settings, but particularly in regional, rural and remote communities. We strive to use recent technology, best educational practice and an innovative curriculum to produce graduates with a commitment to patient-centred, evidence-based, reflective and cost-effective medical practice. The program is based on the best educational evidence from medical schools around the world. It features an innovative, integrated spiral curriculum which revolves around a case-based learning core.

GM benefits from purpose-built facilities, featuring dedicated teaching and resource spaces. GM also features Simulation Centres where the students are exposed to a combination of modern technology and traditional bedside clinical teaching, with the help of Simulated Patients, to develop their skills in diagnosis and management of a wide variety of diseases and conditions. Clinical exposure occurs early in the program, with students being allocated to hospitals, primary care settings and community health centres from their first semester of study.

Students spend significant time during their training undertaking both short and long-term clinical placements in many regional and rural locations. These attachments allow students to gain insight into life in regional, rural and remote communities and to gain an insight into the challenges and rewards that come with practicing medicine in these settings.

Students will receive a broad-based education with a focus on rural medicine, graduating with the skills and ability to practice in any geographic setting and to commence training in any specialty.

Places Available in 2019

Approximately 84 places will be available, including up to 15 places for international students. Students will be placed at either Wollongong campus or Shoalhaven campus for the first 18 months of the program (Phase 1). Students may complete placement outside of these areas during Phase 1.

- **CSP**: 51 (subject to change)
- **BMP**: 18 (subject to change)
- **International**: Up to 15

Bachelor Degree/GPA

All applicants must have completed, or be in their final year of study at time of application, an undergraduate degree consisting of at least three years duration when studied full-time, or equivalent (FTE). The undergraduate degree must be from an Australian university or an equivalent overseas Bachelor qualification from an institution that is recognised under the framework and guidelines set by the Australian Department of Education and Training Qualifications Recognition Policy Unit (previously AEI-NOOSR).

Applicants must have a weighted GPA of greater than 5.0 on a 7 point scale or 2.8 on a 4 point scale at the time of interview selection to be eligible to apply. The GPA score required to receive an offer for interview may fluctuate annually. This GPA will be calculated based on the most recently completed Bachelor degree (including an Honours year if applicable). Postgraduate qualifications are **not** included in GPA calculations.

GPA years will be progressively weighted Final-minus-2 x 1, Final-minus-1 x 2 and Final x 3, and then divided by 6, to give greater weight to the most recent results.
Current study in final year GPA calculations must be at least 0.375 FTE to be included, otherwise those results may not count and the GPA will be calculated based on the Final-minus-1 and Final-minus-2 GPA years only.

UOW does not normally recognise two year Bachelor degrees or one year conversion degrees for the purpose of admission to the medical course. Two year FTE (e.g. graduate entry) Bachelor degrees may only be accepted if completed at time of application, or if there has been a three year Bachelor degree completed prior. In this instance, a two year GPA will be calculated for admissions purposes. Applicants who have completed the equivalent of a three year FTE Bachelor degree but have been awarded credit for prior academic learning may be exempt from this rule. However, UOW generally requires applicants to have completed at least two years of full time study within their awarding institution. Please contact GM for more information if your degree is less than three years in duration.

Accelerated Bachelor degrees are accepted by UOW; that is, a degree consisting of three full time trimesters per year for two years from a recognised institution.

Combined Bachelor/Masters degrees must have all program requirements completed for the qualification to be accepted for admissions purposes by 31st December 2018. This qualification must have a minimum length of three years FTE, with at least two years FTE of Bachelor level study. Where the Bachelor level units are identifiable, this will be the basis for the GPA calculation. If the Bachelor level units cannot be ascertained, all units from the final three years will be included.

Applicants completing combined/double degrees will have their GPA calculated using the final three years of their combined degree. If an applicant exits their combined degree to graduate with a single degree (and the single degree must be a valid three year FTE Bachelor degree), the GPA will be calculated to include only units from the single degree if identifiable; otherwise UOW will revert back to using all units in the final three years. If an applicant is made an offer and subsequently exits their combined degree to graduate with a single degree (and the single degree must be a valid three year FTE Bachelor degree), then their offer is conditional to their maintenance of the minimum required GPA.

**UOW reserves the right to recalculate GPAs at any time before the close of the admissions cycle if required.**

| Currency of qualification | Applicants are required to have graduated from their undergraduate degree within ten years of the closing date of applications. Applicants whose undergraduate degree was completed outside the ten year period may still be considered for admission if they have completed the equivalent of one year full-time tertiary study at Graduate Diploma level or higher at a recognised university within the last ten years. If no postgraduate study has been completed in the last ten years, applicants can apply for a waiver of this rule if they can demonstrate through other activities that they hold current high level academic skills. To request a waiver, applicants need to provide a copy of their university transcripts, CV, and any other documentation in support of their request to md-enquiries@uow.edu.au This should be submitted prior to the closing date of applications to ensure that academic currency has been deemed suitable to continue your application to UOW. Applicants who are required to be assessed for academic currency due to the ten year rule will be deemed ineligible for consideration of an interview and place at UOW for 2019 entry if:  
- An applicant submits a waiver request that is not approved by the UOW Admissions Executive.  
- An applicant does not submit a waiver request at all. It is the responsibility of the applicant to research UOW requirements and submit a waiver request if needed- UOW does not take responsibility if an applicant has been deemed ineligible at UOW due to non-submission or late submission of a waiver request. |

---

Currency of qualification

Applicants are required to have graduated from their undergraduate degree within ten years of the closing date of applications. Applicants whose undergraduate degree was completed outside the ten year period may still be considered for admission if they have completed the equivalent of one year full-time tertiary study at Graduate Diploma level or higher at a recognised university within the last ten years. If no postgraduate study has been completed in the last ten years, applicants can apply for a waiver of this rule if they can demonstrate through other activities that they hold current high level academic skills.

To request a waiver, applicants need to provide a copy of their university transcripts, CV, and any other documentation in support of their request to md-enquiries@uow.edu.au This should be submitted prior to the closing date of applications to ensure that academic currency has been deemed suitable to continue your application to UOW.

Applicants who are required to be assessed for academic currency due to the ten year rule will be deemed ineligible for consideration of an interview and place at UOW for 2019 entry if:

- An applicant submits a waiver request that is not approved by the UOW Admissions Executive.
- An applicant does not submit a waiver request at all.

It is the responsibility of the applicant to research UOW requirements and submit a waiver request if needed- UOW does not take responsibility if an applicant has been deemed ineligible at UOW due to non-submission or late submission of a waiver request.
| **GAMSAT, CASPer and Portfolio** | If a waiver request is submitted and not approved after the closing date of applications, no changes to preferences can be made at this time. If a waiver request is submitted close to the application closing date, UOW cannot guarantee that it will be processed before applications close.

A minimum **GAMSAT** Overall Score of 50 with a minimum of 50 in each of the three Sections is required to be considered for interview.

**CASPer** is an online video based scenario, situational judgement test and is designed to measure the personal and professional traits, such as ethics, empathy and communication and how these traits will be best suited towards a career in medicine. For domestic applications to be considered at UOW GM, applicants need to have completed the CASPer test during the testing periods identified for UOW MD applicants. Applicants who do not have a valid CASPer score will not be considered eligible for entry. CASPer testing for UOW MD applicants will be held in mid-late May 2018, dates and times to be released shortly – please check the UOW admissions website for testing dates.

For 2019 entry, CASPer scores will not be used in the ranking for interview places but will be considered as an additional piece of evidence in final offers.

The GEMSAS application form also incorporates the **GM Admissions Portfolio** which must be completed by all applicants. The portfolio, application and rural residency forms should be submitted electronically directly to GEMSAS and will be used as one of the criteria to rank your eligibility for interview. This information must be submitted regardless of UOW ranking on your preference form as applicants who fail to submit a portfolio will not be considered.

The GM Admissions Portfolio may take time to complete and it is recommended that applicants commence preparation early and submit well prior to the closing date.

To assist in your preparation, a draft portfolio template is available from the GM website for your consideration. This is a template only to be used as a guide - only portfolios submitted in the approved format via GEMSAS will be accepted. Please note that all activities highlighted in the portfolio require a current email contact for verification.

**GM Draft Portfolio Template**

**GM Portfolio Guide for 2018 Entry**

The application form and portfolio must be completed electronically via GEMSAS by the advertised closing date. |

| **Bonuses / Special entry schemes** | No GPA bonuses are awarded for postgraduate study; however applicants are encouraged to include these academic experiences in their portfolio as they will be viewed favourably during scoring. Rural applicants should read the sections below for further information. |

| **Indigenous Applicants** | GM understands the important role of Indigenous medical practitioners in addressing the disparity of health outcomes for Indigenous people. This is demonstrated through a commitment to training Indigenous doctors by providing a range of support mechanisms for applicants who are of Aboriginal or Torres Strait Islander descent.

A dedicated selection process is available for Indigenous applicants. For further information on this, please contact the GM.

To be considered for these places when applying via GEMSAS, applicants must indicate their Indigenous status at the time of application. Applicants will be contacted by GM to supply relevant supporting documentation.

Applicants in this category are required to reach acceptable levels of performance in GAMSAT, interview and GPA as determined by the school.

A panel interview with the Academic Leader: Admissions and Selection, Academic Leader: Indigenous Health and a representative from the community is required. |
| Rural entry | Rural applicants do not need to apply specifically for a rural sub quota as GM gives preference to students who can demonstrate ties to regional, rural and remote communities.  
UOW GM uses the rural residency/schooling part of the application to assess your background as far as living and studying in rural and regional areas. The information on your form is assessed and scored using the Australian Standard Geographical Classification - Remoteness Area (ASGC-RA). GM will require rurality verification of your schooling and residential address details as outlined in your Admissions Portfolio.  
Rurality supporting documentation must be submitted directly to GEMSAS as per the instructions outlined in this guide. |
|---|---|
| Campus and place type preference | At the time of application applicants will need to indicate their preferred campus (Wollongong or Shoalhaven) for the first 18 months of the program. This preference will be considered but not guaranteed.  
Extenuating circumstances for campus preference may be considered. Applicants will be contacted by GM to supply relevant supporting documentation if required.  
Applicants must also indicate their place type preferences at time of application, in the order they would most like to be offered. UOW offers CSP and BMP places. There are no Fee paying places available.  
Campus and place type preferences have no influence on the decision for offer. |
| Interview | Applicants for the UOW MD are ranked for interview using the overall total of their weighted GPA, GAMSAT and Portfolio scores (including rurality). The weighting of each criterion is 30%, 30% and 40% respectively. Approximately 160 applicants will be invited to interview.  
Domestic interviews are conducted by formally trained interviewers in a multi-station format on both the Wollongong and Shoalhaven Campuses across two weekends in late September 2018. Interviewees are rated on personal qualities including their communication skills, empathetic and ethical approach, reflective manner, teamwork and decision making skills. |
| Offers | On the completion of the interview process, candidates’ interview scores and portfolio scores are used to rank for offer, with equal weighting. GPA and GAMSAT results are not included in the formula after interview.  
Offers are made in November with a small number of subsequent offers in December and January (if required). Offers are made for a specific status, campus and year only. Offers to UOW GM may not be deferred.  
Candidates who do not respond to their official Letter of Offer by the required due date as specified by University will have it rescinded, and the offer may be allocated to the next eligible applicant in a subsequent offer round at the discretion of the University.  
Offers to successful candidates completing their degree in 2018 will be conditional to their maintenance of the minimum required GPA. Evidence of completion must be produced for the offer to be ratified.  
Qualifying degrees must be completed by 31st December 2018, unless otherwise approved by the Admissions Executive. |
| International Applicants | International application processes are slightly different and international applications are assessed on a rolling basis from January 2018. International applicants should apply directly to GM.  
| Open Days and Information Sessions | An information evening will be held at Wollongong campus on May 8th 2018 – 6.30pm-8.30pm (prior to the close of applications). Students considering UOW GM will have the opportunity to meet current students and academic staff and to ask questions regarding all aspects of the |
program offered. Details of the evening will be posted on the UOW GM website. Applicants who are unable to attend the information evening will have access to the presentations electronically. Applicants are strongly urged to check the UOW website for any changes or updates to any information provided on this form.
Appendix A: Institutions Participating in ARTS (Automated Results Transfer System)

You do **NOT** need to provide academic transcripts for studies undertaken at the following institutions:
